INDEPENDENT AUDITOR'S REPORT

To the Board of Education Independent School District No. 363 Northome, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 363, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 363, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the District's total OPEB liability and related ratios, schedule of District contributions, schedule of District's share of net pension liability, and notes to required supplementary information as listed in the table of contents as required supplementary information as listed in the table of contents as required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We were unable to apply certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America because the District was unable to provide board approved budgets that agreed to the budgets set aside in the District's financial software. We do not express an opinion or provide any assurance on the information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining statements, schedule of changes in fund balances, and compliance table as listed in the table of contents as supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements, schedule of changes in fund balances, and compliance table are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements, schedule of changes in fund balances, and compliance table are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 12, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and reporting and compliance.

INDEPENDENT SCHOOL DISTRICT NO. 363 NORTHOME, MINNESOTA MANAGEMENT'S DISCUSSION AND ANALYSIS For the Year Ended June 30, 2019

This section of Independent School District No. 363's annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2019. Please read it in conjunction with the District's financial statements, which immediately follow this section.

Financial Highlights

The general fund balance decreased \$720,015 during the 2018-2019 school year.

Overview of the Financial Statements

This annual report consists of four parts: management's discussion and analysis (this section), the basic financial statements, required supplementary information, and supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the district-wide statements.
 - The *governmental funds statements* tell how basic services such as regular and special education were financed in the *short-term* as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's general fund budget for the year, and supplementary information that is presented for additional analysis.

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net position* and how it has changed. Net position – the difference between the District's assets, liabilities, and deferred inflows/outflows of resources – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are indicators of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the District's activities are shown in one category:

• Governmental activities: All of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state formula aid finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues.

The District has one kind of fund:

Governmental funds: The District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, reconciliations have been provided following the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance to help explain the relationship (or differences) between governmental funds and governmental activities.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the debt service fund, both of which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data is provided in the form of combining statements elsewhere in this report.

Financial Analysis of the District as a Whole

Net Position

The District's combined net position was \$2,336,757 on June 30, 2019 (see details in Table A-1). This was an increase of 39.4 percent from the prior year.

Table A-1 Statement of Net Position

	2019 2018	Total Percentage Change

Net Position - Ending	\$_	2,336,757	\$	1,675,978	39.4 %

The District's total revenues were \$6,151,730 for the year ended June 30, 2019. Property taxes and state aid payments accounted for 95 percent of total revenue for the year.

The total cost of all programs and services was \$5,490,951. The District's expenses are predominantly related to educating and caring for students.

INDEPENDENT SCHOOL DISTRICT NO. 363 NORTHOME, MINNESOTA MANAGEMENT'S DISCUSSION AND ANALYSIS For the Year Ended June 30, 2019

Total revenues surpassed expenses, increasing net position \$660,779 over last year. For the year ended June 30, 2019, the net effect of the District's deferred inflows and outflows of resources and net pension liability related to TRA and PERA increased net position by \$1,132,451. For the year ended June 30, 2018, the net effect of the District's deferred inflows and outflows of resources and net pension liability related to TRA and PERA decreased net position by \$797,518.

The net cost of governmental activities is their total costs less program revenues applicable to each category.

Table A-3 presents these net costs.

	Total Cost 2019	t of Services 2018	Total Percentage Change	Net Cost 2019	of Services 2018	Total Percentage Change

	\$ 5,490,951	\$ 7,073,286	(22.4) %	\$ 4,163,772	\$ 5,635,775	(26.1) %

Table A-3 Net Cost of Governmental Activities

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Table A-4 Major Funds

	Fund B	alance		Percentage
	6/30/19	6/30/18	Decrease	Decrease
Governmental Funds				
General \$	4,220,227 \$	4,940,242 \$	(720,015)	(14.6) %
Debt Service Fund	53,666	53,308	358	0.7

General Fund

The general fund includes the primary operations of the District in providing educational services to students from kindergarten through grade 12, including pupil transportation activities and capital outlay projects.

Table A-5 presents a summary of general fund revenue.

Table A-5 General Fund Revenue

	2019	 2018	 Amount of Increase (Decrease)	Percent Increase (Decrease)
Local Sources				
Property Taxes	\$ 1,041,500	\$ 1,091,278	\$ (49,778)	(4.6) %
Interest Earnings	13,220	11,119	2,101	18.9
Other	72,634	58,016	14,618	25.2
State Sources	4,580,433	4,354,727	225,706	5.2
Federal Sources	142,165	151,636	(9,471)	(6.2)
Total General Fund Revenue	\$ 5,849,952	\$ 5,666,776	\$ 183,176	3.2 %

Total general fund revenue increased by \$183,176 or 3.2 percent from the previous year. Basic general education revenue is determined by a state per student funding formula. Other state-authorized revenue, including excess levy referendum and the property tax shift, involve an equalized mix of property tax and state aid revenue. Therefore, the mix of property tax and state aid can change significantly from year to year without any net change in revenue.

Table A-6 presents a summary of general fund expenditures.

Table A-6General Fund Expenditures

						Percent		
						Increase	Increase	
	_	2019	_	2018		(Decrease)	(Decrease)	
Salaries	\$	3,362,216	\$	3,025,622	\$	336,594	11.1 %	6
Employee Benefits		819,568		839,867		(20,299)	(2.4)	
Purchased Services		1,378,359		1,247,186		131,173	10.5	
Supplies and Materials		455,106		362,752		92,354	25.5	
Capital Expenditures		376,311		109,623		266,688	243.3	
Other Expenditures		43,552		43,386		166	0.4	
Total General Fund Expenditures	\$	6,435,112	\$	5,628,436	\$	806,676	14.3 %	6

Total general fund expenditures increased \$806,676 or 14.3 percent from the previous year.

General Fund Budgetary Highlights

The District adopted its original budget in June 2018. During the year ended June 30, 2019, the District revised its budget.

The District's final budget for the general fund anticipated that expenditures and other financing uses would exceed revenues and other financing sources by \$783,444, the actual results for the year show a \$720,015 deficit. The actual expenditures were more than the budget due to unbudgeted projects.

Capital Assets and Debt Administration

Capital Assets

Note 3 to the financial statements presents an analysis of capital assets transactions occurring during the year ended June 30, 2019. Additions totaling \$389,692 consisted of a floor cleaner, lockers, a lawn mower, an above ground tank, four buses, and a vehicle. The District disposed of two buses and four vehicles totaling \$202,666.

Long-Term Debt

At year-end, the District had \$1,024,857 of long-term debt consisting of bonded indebtedness net of related premiums and severance payable. Note 6 to the financial statements presents details and payment provisions of these items.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the existing circumstances that could significantly affect its financial health in the future:

- Declining enrollment coupled with inflation will undoubtedly have a negative impact on the District's financial outlook.
- As the building ages, the District expects the cost of maintaining the building to increase significantly over the years.
- Weakening economic conditions in local economy.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Administration Offices, Independent School District No. 363, P.O. Box 465, Northome, MN 56661.

INDEPENDENT SCHOOL DISTRICT NO. 363 NORTHOME, MINNESOTA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended June 30, 2019

Total net change in fund balances - governmental funds	\$ (745,195)
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets are allocated over the estimated useful lives as depreciation expense.	
Capital Outlay Depreciation expense	369,692 (306,429)
The gain on the disposal of capital assets increases net position.	20,000
Payment of debt principal is an expenditure in the governmental funds, but the payment reduces long- term liabilities in the statement of net position.	180,000
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. Also, governmental funds report the effect of premiums when the debt is first issued, whereas these amounts are deferred	
and amortized in the statement of activities.	3,635
Change in net pension liability	5,337,934
Change in deferred outflows and inflows of resources related to net pension liability	(4,205,483)
Change in deferred outflows and inflows of resources related to other postemployment benefit liability	(11,075)
Recognition of additional pension expense and grant revenue for the District's proportionate share of the State of Minnesota's contribution to the PERA and TRA.	
In the statement of activities, certain expenses are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts paid).	
Other postemployment benefit liability Severance payable	33,968 (12,688)
Revenue in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.	 (3,580)
Change in net position - governmental activities	\$ 660,779

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The financial statements of Independent School District No. 363 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity

The District's policy is to include in the financial statements all funds, departments, agencies, boards, commissions, and other component units for which the District is considered to be financially accountable.

Component units are legally separated entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally dependent upon by the potential component unit.

Based on these criteria, there are no organizations considered to be component units of the District.

Extracurricular student activities are carried on primarily by student participants under the guidance of an adult and are generally conducted outside of school hours. In accordance with Minnesota Statutes, the District's school board has elected not to control or be otherwise financially accountable with respect to the underlying extracurricular activities. Accordingly, the extracurricular student activity accounts are not included in these basic financial statements.

C. Basic Financial Statement Presentation

The district-wide financial statements (i.e. the statement of net position and the statement of activities) display information about the reporting government as a whole. These statements include all the financial activities of the District.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Depreciation expense that can be specifically identified by function is included in the direct expenses of each function.

Separate fund financial statements are provided for governmental funds. Major individual governmental funds are reported in separate columns in the fund financial statements.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing or related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for advance amounts recognized in accordance with a statutory "tax shift." Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

<u>Revenue Recognition</u> – Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue is generally considered available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to Minnesota Statutes and accounting principles generally accepted in the United States of America. Minnesota Statutes include state aid funding formulas for specific fiscal years. Federal revenue is recorded in the year in which the related expenditure is made. Other revenue is considered available if collected within one year.

<u>Recording of Expenditures</u> – Expenditures are generally recorded when a liability is incurred. However, expenditures are recorded as prepaid for approved disbursements or liabilities incurred in advance of the year in which the item is to be used. Principal and interest on long-term debt issues are recognized on their due dates.

As a general rule, the effect of interfund activity has been eliminated from the district-wide statements.

Description of Funds

The existence of the various District funds has been established by the State of Minnesota, Department of Education. Each fund is accounted for as an independent entity. A description of the funds included in this report are as follows:

Major Governmental Funds

<u>General Fund</u> – Accounts for all financial resources and transactions except those required to be accounted for in other funds including pupil transportation and capital outlay activities, which were previously (prior to July 1, 1996) accounted for in separate special revenue funds.

<u>Debt Service Fund</u> – Accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

GASB No. 34 also requires that budget vs. actual information be presented for the general fund and all major special revenue funds.

Nonmajor Governmental Funds

<u>Special Revenue Funds</u> – Accounts for proceeds of specific revenue sources (other than permanent fund and major capital projects) that are legally restricted to expenditures for specified purposes. The District's special revenue funds and its purpose is as follows:

<u>Food Service</u> – Accounts for all activities associated with the preparation and serving of regular and incidental meals, lunches, or snacks in connection with school activities.

<u>Community Service</u> – Accounts for all resources designated for programs other than those for elementary and secondary students.

Building Fund – Accounts for resources used for the acquisition and construction of major capital facilities.

<u>Permanent Fund</u> – Accounts for resources legally restricted such that only the earnings it generates, and not the principal, may be used to finance operations.

E. Specific Account Information

<u>Cash and Investments</u> – Cash and temporary investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

Investments are carried at fair value. The District considers certificates of deposit to be cash.

When fair value measurements are required, various data is used in determining those values. Assets and liabilities that are carried at fair value must be classified and disclosed in the following levels based on the nature of the data used.

Level 1: Quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable market inputs that are not corroborated by market data

<u>Taxes Receivable</u> – Taxes receivable represents taxes levied in 2018 which are not payable until 2019, net of the amount received prior to June 30.

<u>Property Taxes</u> – Property tax levies are certified to the County Auditor in December of each year for collection from taxpayers in May and October of the following year. In Minnesota, counties act as collection agents for all property taxes. The county spreads all levies over taxable property. Such taxes become a lien on property on the following January 1. The county generally remits taxes to the District at periodic intervals as the taxes are collected.

A portion of property taxes levied is paid by the State of Minnesota through various tax credits, which are included in revenue from state sources in the financial statements.

Generally, tax revenue is recognized in the fiscal year ending June 30, following the calendar year in which the tax levy is collectible, while the current calendar year tax levy is recorded as unavailable revenue (property taxes levied for subsequent years).

The majority of the revenue in the general fund is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between property taxes and state aids by the legislature based on education funding priorities. Changes in this allocation are periodically accompanied by a change in property tax revenue recognition referred to as the "tax shift."

Taxes which remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is deferred in the fund based financial statements because it is not known to be available to finance the operations of the District in the current year. The allowance for uncollectible taxes is \$23,000.

<u>Inventory</u> – Inventory is recorded using the consumption method of accounting and consists of purchased food, supplies, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method. Surplus commodities are stated at standardized costs, as determined by the Department of Agriculture.

<u>Capital Assets</u> – Capital assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated capital assets are recorded at acquisition value at the date of donation. The District maintains a threshold level of \$5,000 or more for capitalizing capital assets. Expenditures for major additions and improvements that extend the useful lives of property and equipment are capitalized. Routine expenditures for repairs and maintenance are charged to expense as incurred.

Capital assets are recorded in the district-wide financial statements, but are not reported in the fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings, and 5 to 25 years for equipment.

Capital assets not being depreciated include land and construction in process, if any.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

<u>Long-Term Obligations</u> – In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Existing bonded debt is reported at the face value of remaining indebtedness. For any new indebtedness that may be issued in the future, bond premiums and discounts will be deferred and amortized over the life of the bonds using the effective interest method. Bonds payable will be reported net of the applicable bond premium or discount. Bond issuance costs will be expensed in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

<u>Pensions</u> – For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) and additions to/deductions from PERA and TRA's fiduciary net position have been determined on the same basis as they are reported by PERA and TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and

refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

PERA has a special funding situation created by direct aid contributions of \$16,000,000 made by the State of Minnesota to the fund in 2018.

TRA has a special funding situation created by direct aid contributions made by the State of Minnesota, City of Minneapolis and Minneapolis School District. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006. A second direct aid source is from the State of Minnesota for the merger of the Duluth Teacher's Retirement Fund Association (DTRFA) in 2015.

<u>Deferred Outflows/Inflows of Resources</u> – In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resource (expense/expenditure) until then. The District has two items that qualify for reporting in this category named *Cost Sharing Defined Benefit Pension Plan* and *Other Postemployment Benefits* which represents actuarial differences within PERA and TRA pension plans as well as amounts paid to the plans after the measurement date.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items, one of which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue – delinquent taxes*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The item, *property taxes levied – subs. years*, is reported as a deferred inflow of resources for both the Balance Sheet – Governmental Funds and the Statement of Net Position as these amounts represent property tax revenue levied for a subsequent period. The third item, *Cost Sharing Defined Benefit Pension Plan*, represents actuarial differences within PERA and TRA pension plans.

<u>Net Position</u> – Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources in the District's financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any long-term debt attributable to the acquisition, construction, or improvement of those assets. Restricted Net Position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted Net Position is the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

<u>Net Position Flow Assumption</u> – Sometimes the government will fund outlays for a particular purpose for both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

<u>Fund Balance</u> – The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

<u>Nonspendable</u> – Consists of amounts that are not in spendable form (such as inventory) or are required to be maintained intact.

<u>Restricted</u> – Consists of amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions and administered by the Minnesota Department of Education.

<u>Committed</u> – Consists of amounts constrained to specific purposes by a government itself, using its highest level of decision making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.

<u>Assigned</u> – Consists of amounts a government intends to use for a specific purpose. These constraints are established by the Board of Education and/or management. The Board of Education delegates the authority to assign fund balances to the Superintendent.

<u>Unassigned</u> – Consists of amounts that are available for any purpose; positive amounts are reported only in the general fund.

When both restricted and unrestricted resources are available for use, it is the District's policy to first use restricted resources, and then use unrestricted resources as they are needed. When committed, assigned or unassigned resources are available for use, it is the District's policy to use resources in the following order: 1) committed, 2) assigned and 3) unassigned.

The school district will strive to maintain a minimum unassigned general fund balance of three months of operating expenses.

F. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Ultimate results could differ from those estimates.

NOTE 2 DEPOSITS AND INVESTMENTS

The District maintains a cash account at its depository bank. Investments are carried at fair value. The District considers certificates of deposit to be cash.

The District's interest income for the year ended June 30, 2019, was \$15,409.

The pooled cash and investment account is comprised of the following:

Cash	\$ 957,083
Investments	3,880,459
Total	\$ <u>4,837,542</u>

As of June 30, 2019, the District's investments were in the Minnesota School District Liquid Asset Fund external investment pool.

INDEPENDENT SCHOOL DISTRICT NO. 363 NORTHOME, MINNESOTA NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2019

Investment

Fair Value (Level 1)

\$3,880,459

Minnesota School District Liquid Asset Fund

The Minnesota School District Liquid Asset Fund is a common law trust organized and existing under the laws of the State of Minnesota, in accordance with the provisions of the Minnesota Joint Powers Act. The general objective of the Fund is to provide a high yield for the participants while maintaining liquidity and preserving capital by investing only in instruments authorized by Minnesota Statutes, which govern the temporary investment of school district monies. In addition, the fixed rate/fixed term portion of the program is also structured with safety of principal as the major objective.

The Minnesota School District Liquid Asset Fund is an external investment pool not registered with the Securities Exchange Commission (SEC) that follows the same regulatory rules of the SEC under 2a7. The fair value of the position in the pool is the same as the value of the pool shares.

<u>Interest Rate Risk</u> - The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - The District may invest idle funds as authorized in Minnesota Statutes, as follows:

- (a) Direct obligations or obligations guaranteed or insured issued by the United States, its agencies, its instrumentalities, or organizations created by an act of Congress.
- (b) General obligations and revenue obligations of any state or local government with taxing powers rated "A" and "AA", respectively, and general obligations of the Minnesota Housing Finance Agency which is a moral obligation of the State of Minnesota and rated "A" or better.
- (c) Commercial paper issued by United States corporations or their Canadian subsidiaries, rated in the highest quality by at least two rating agencies, and maturing in 270 days or less.
- (d) Time deposits that are fully insured by the FDIC or bankers acceptances of U.S. banks.
- (e) Shares of investment companies registered under the Federal Investment Company Act of 1940 and whose only investments are in securities described in (a) above.
- (f) Repurchase or reverse repurchase agreements with banks that are qualified as a "depository" of public funds of the government entity, any other financial institution which is a member of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
- (g) Guaranteed investment contracts (GIC's) issued or guaranteed by United States commercial banks or domestic branches of foreign banks or United States insurance companies if similar debt obligations of the issuer or the collateral pledged by the issuer is in the top two rating categories, or in the top three rating categories for long-term GIC's issued by Minnesota banks.
- (h) Securities lending agreements with financial institutions having its principal executive office in Minnesota and meeting the qualifications described in (f) above.

The Minnesota School District Liquid Asset Fund is rated AAA by Standard & Poor's.

<u>Concentration of Credit Risk</u> - The District places no limit on the amount the District may invest in any one issuer.

<u>Custodial Credit Risk - Deposits</u> - The District does not have a policy for custodial credit risk. In accordance with Minnesota Statutes, the District maintains deposits at those depository banks authorized by the District's board, all of which are members of the Federal Reserve System. Minnesota Statutes require that all district

INDEPENDENT SCHOOL DISTRICT NO. 363 NORTHOME, MINNESOTA NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2019

deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by insurance or bonds. As of June 30, 2019, the District was not exposed to custodial credit risk.

<u>Custodial Credit Risk - Investments</u> - The investment in the Minnesota School District Liquid Asset Fund is not subject to the credit risk classifications as noted in paragraph 9 of GASB Statement 40.

NOTE 3 CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2019, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital Assets, Not Being Depreciated:	:			
Land	\$ 193,500	\$	\$	\$ 193,500
Capital Assets, Being Depreciated:				
Land Improvements	510,080			510,080
Buildings	9,091,867			9,091,867
Equipment	1,553,630	389,692	202,666	1,740,656
Total Capital Assets,				
Being Depreciated	11,155,577	389,692	202,666	11,342,603
Less Accumulated Depreciation For:				
Land Improvements	414,918	7,854		422,772
Buildings	6,411,967	193,931		6,605,898
Equipment	1,203,119	104,644	202,666	1,105,097
Total Accumulated Depreciation	8,030,004	306,429	202,666	8,133,767
Total Capital Assets, Being				
Depreciated, Net	3,125,573	83,263		3,208,836
Governmental Activities Capital				
Assets, Net	\$3,319,073	\$ 83,263	\$	\$3,402,336

In the statement of activities, depreciation expense was charged to the following governmental functions:

Elementary & Secondary Regular Instruction	\$ 7,246
Pupil Support Services	91,853
Sites and Buildings	 35,729
	134,828
Unallocated	 171,601
Total Depreciation Expense	\$ 306,429

NOTE 4 DEFINED BENEFIT PENSION PLANS – STATEWIDE

Substantially, all employees of the District are required by state law to belong to pension plans administered by Teachers Retirement Association (TRA) or Public Employees Retirement Association (PERA), all of which are administered on a statewide basis.

Disclosures relating to these plans follow:

A. Public Employees Retirement Association

<u>Plan Description</u> – The District participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401 (a) of the Internal Revenue Code.

General Employees Retirement Plan

All full-time and certain part-time employees of the District are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

<u>Benefits Provided</u> – PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for a Coordinated Plan member is 1.2% for each of the first ten years of service and 1.7% for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7% for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. General Employees Plan benefit recipients receive a future annual 1.0 percent increase. If the General Employees Plan is at least 90 percent funded for two consecutive years, the benefit increase will revert to 2.5 percent. If, after reverting to a 2.5 percent benefit increase, the funding ratio declines to less than 80 percent for one year or less than 85 percent for two consecutive years, the benefit increase will decrease to 1.0 percent. A benefit recipient who has been receiving a benefit for at least 12 full months as of June 30, will receive a full increase. Members receiving benefits for at least one month but less than 12 full months as of June 30, will receive a pro rata increase.

<u>Contributions</u> – Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

Coordinated Plan members were required to contribute 6.50% of their annual covered salary in fiscal year 2019 and the District was required to contribute 7.50% for Coordinated Plan members. The District's

contributions to the General Employees Fund for the year ended June 30, 2019, were \$77,462. The District's contributions were equal to the required contributions as set by state statute.

<u>Pension Costs</u> – At June 30, 2019, the District reported a liability of \$782,210 for its proportionate share of the General Employees Fund's net pension liability. The District's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16,000,000. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the District totaled \$25,724. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability associated by PERA during the measurement period for employer payroll paid dates from July 1, 2017, through June 30, 2018, relative to the total employer contributions received from all of PERA's participating employers. The District's proportionate share was 0.0141% at the end of the measurement period and 0.0142% for the beginning of the period.

District's proportionate share of net pension liability	\$ 782,210
State of Minnesota's proportionate share of the net pension	
liability associated with the District	 25,724
Total	\$ 807,934

For the year ended June 30, 2019, the District recognized pension expense of (\$19,982) for its proportionate share of the General Employee Plan's pension expense. In addition, the District recognized an additional \$5,999 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16,000,000 to the General Employees Fund.

At June 30, 2019, the District reported its proportionate share of General Employees Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources		Deferred Inflows of Resources
Differences between expected and actual economic experience	\$	20,844	\$	25,888
Difference between projected and actual investment earnings				65,550
Changes in actuarial assumptions		84,789		88,317
Changes in proportion				79,077
Contributions paid to PERA subsequent to the measurement date		77,462		
Total	\$_	183,095	\$_	258,832

\$77,462 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	Pension Expense
June 30	Amount
2020	\$ (5,324)
2021	(66,200)
2022	(65,350)
2023	(16,325)

<u>Actuarial Assumptions</u> – The total pension liability in the June 30, 2018, actual valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Active Member Payroll Growth	3.25% per year
Investment Rate of Return	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25% per year.

Actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies. The most recent six-year experience study in the General Employees Plan was completed in 2015. Economic assumptions were updated in 2017 based on a review of inflation and investment return assumptions.

The following changes in actuarial assumptions and plan provisions occurred in 2018:

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2015 to MP-2017.

- The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

Changes in Plan Provisions:

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.

- Interest credited on member contributions decreased from 4.0 percent to 3.0 percent, beginning July 1, 2018.

- Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.

- Contribution stabilizer provisions were repealed.

- Post-retirement benefit increases were changed from 1.0 percent per year with a provision to increase to 2.5 percent upon attainment of 90 percent funding ratio to 50 percent of the Social Security Cost of Living Adjustment, not less than 1.0 percent and not more than 1.5 percent, beginning January 1, 2019.

- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.

- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of

return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Domestic Stocks	36.00%	5.10%
International Stocks	17.00%	5.30%
Bonds (Fixed Income)	20.00%	0.75%
Alternative Assets (Private Markets)	25.00%	5.90%
Cash	2.00%	0.00%

<u>Discount Rate</u> – The discount rate used to measure the total pension liability in 2018 was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Pension Liability Sensitivity</u> – The following presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

District Proportionate Share of NPL					
	1% Decrease Current 1% Increase				
	(6.5%)	(7.5%)	(8.5%)		
\$	1,271,192 \$	782,210 \$	387,570		

<u>Pension Plan Fiduciary Net Position</u> – Detailed information about each defined benefit pension plan's fiduciary net position is available in a separately issued PERA financial report that includes the financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

B. <u>Teachers Retirement Association</u>

<u>Plan Description</u> - The Teachers Retirement Association (TRA) is an administrator of a multiple employer, costsharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul schools or Minnesota State colleges and universities). Educators first hired by Minnesota State may elect either TRA coverage or coverage through Minnesota State's Individual Retirement Account Plan (IRAP) within on year of eligible employment.

<u>Benefits Provided</u> - TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described:

Tier I Benefits:

<u>Tier I</u>	Step Rate Formula	Percentage
Basic	1 st ten years of service	2.2 percent per year
	All years after	2.7 percent per year
Coordinated	1 st ten years if service years are up to July 1, 2006	1.2 percent per year
	1 st ten years if service years are July 1, 2006 or after	1.4 percent per year
	All other years of service if service years are up to July 1, 2006	1.7 percent per year
	All other years of service if service years are July 1, 2006 or after	1.9 percent per year

With these provisions:

- a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- b) 3 percent per year early retirement reduction factors for all years under normal retirement age.
- c) Unreduced benefits for early retirement under a Rule of 90 (age plus allowable service equals 90 or more).

or

Tier II Benefits:

For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for Coordinated members and 2.7 percent per year for Basic members is applied. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for Coordinated members and 2.7 percent for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statute. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree – no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the plan provisions in effect at the time they last terminated their public service.

INDEPENDENT SCHOOL DISTRICT NO. 363 NORTHOME, MINNESOTA NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2019

<u>Contribution Rate</u> - Per Minnesota Statutes, Chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal years ended June 30, 2017, June 30, 2018, and June 30, 2019 were:

	June 30, 2017		June 30, 2018		June 30, 2019	
	Employee	Employer	Employee	Employer	Employee	Employer
Basic	11.00%	11.50%	11.00%	11.50%	11.00%	11.71%
Coordinated	7.50%	7.50%	7.50%	7.50%	7.50%	7.71%

The following is a reconciliation of employer contributions in TRA's CAFR "Statement of Changes in Fiduciary Net Position" to the employer contributions used in Schedule of Employer and Non-Employer Pension Allocations:

Employer contributions reported in TRA's CAFR	in thousands	
Statement of Changes in Fiduciary Net Position	\$	378,728
Add employer contributions not related to future contribution efforts		522
Deduct TRA's contributions not included in allocation		(471)
Total employer contributions		378,779
Total non-employer contributions		35,588
Total contributions reported in Schedule of Employer and		
Non-Employer Allocations	\$	414,367

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations due to the number of decimal places used in the allocations. TRA has rounded percentage amounts to the nearest ten thousandths.

<u>Actuarial Assumptions</u> - The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Key Methods and Assumptions Used in Valuation of Total Pension Liability

Actuarial Information

Valuation Date Experience Study	July 1, 2018 June 5, 2015 November 6, 2017 (economic assumptions)
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions: Investment Rate of Return Price Inflation Wage Growth Rate Projected Salary Increase Cost of Living Adjustment	7.50% 2.50% 2.85% for 10 years and 3.25% thereafter 2.85 to 8.85% for 10 years and 3.25 – 9.25% thereafter 1.0% for January 2019 through January 2023, then increasing by 0.1% each year up to 1.5% annually

Mortality Assumption

Pre-retirement	RP-2014 white collar employee table, male rates set back six years and female rates set back five years. Generational projection uses the MP-2015 scale. RP-2014 white collar annuitant table, male rates set back three years and female			
Post-retirement				
	rates set back three years, with further adjustments of the rates. Generational projection uses the MP-2015 scale.			
Destalle shifts				
Post-disability	RP-2014 disabled retiree mortality table, without adjustment.			

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Allocation as	Final	Long-Term
	of June 30,	Target	Expected Real
Asset Class	2018	Allocation	Rate of Return
Domestic Equity	33.00%	36.00%	5.10%
International Equity	16.00%	17.00%	5.30%
Private Markets	25.00%	25.00%	5.90%
Fixed Income	16.00%	20.00%	0.75%
Treasuries	8.00%	0.00%	0.50%
Unallocated Cash	2.00%	2.00%	0.00%

The TRA actuary has determined the average of the expected remaining service lives of all members for fiscal year is 2016 is 6 years. The "Difference Between Expected and Actual Experience" and "Changes of Assumptions" and "Changes in Proportion" use the amortization period of 6 years in the schedule presented. The amortization period for "Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments" is over a period of 5 years as required by GASB 68.

Changes in actuarial assumptions since the 2017 valuation:

- The COLA was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% in January 1, 2028.

- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.

- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.

- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least 62 with 30 years of service are exempt.

- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payment and purchases from members, employers is reduced from 8.5% to 7.5%, effective July 1, 2018.

INDEPENDENT SCHOOL DISTRICT NO. 363 NORTHOME, MINNESOTA NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2019

- The employer contribution rate is increased each July 1 over the next 6 years, (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

<u>Discount Rate</u> - The discount rate used to measure the total pension liability was 7.50 percent. This is an increase from the discount rate at the prior measurement date of 5.12 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal 2018 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

<u>Net Pension Liability</u> - On June 30, 2019, the District reported a liability of \$2,411,788 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis, and Minneapolis School District. District proportionate share was 0.0384% at the end of the measurement period and 0.0382% for the beginning of the year.

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of net pension liability	\$	2,411,788
---	----	-----------

State's proportionate share of the net pension liability associated with the District \$ 226,561

For the year ended June 30, 2019, the District recognized pension expense of (\$874,132). It also recognized (\$158,125) as an increase to pension expense for the support provided by direct aid.

On June 30, 2019, the District had deferred resources related to pensions from the following sources:

		Deferred	Deferred
		Outflows of	Inflows of
	_	Resources	Resources
Differences between expected and actual experience	\$	30,662 \$	48,424
Net difference between projected and actual earnings on plan inv.			168,859
Changes in actuarial assumptions		3,262,595	4,108,079
Changes in proportion		20,081	189,207
Contributions paid to TRA subsequent to the measurement date	_	178,879	
Total	\$	3,492,217 \$	4,514,569

\$178,879 reported as deferred outflows of resources related to pensions resulting from District contributions to TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to TRA pensions will be recognized in pension expense as follows:

INDEPENDENT SCHOOL DISTRICT NO. 363 NORTHOME, MINNESOTA NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2019

	Year Ending June 30		Pension Expense Amount
-	2020		236,395
	2020	Ψ	159,865
	-		,
	2022		(1,315)
	2023		(948,504)
	2024		(647,672)

<u>Pension Liability Sensitivity</u> - The following presents the net pension liability calculated using the discount rate of 7.50 percent as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent) or one percentage point higher (8.50 percent) than the current rate.

Sensitivity of the Net Pension Liability (NPL) to									
Changes in the Discount Rate									
1% Decrease	1% Increase								
(6.5%)	(7.5%)	(8.5%)							
\$ 3,827,498 \$	2,411,788 \$	1,243,837							

The District's proportion of the net pension liability was based on the employer contributions to TRA in relation to TRA's total employer contributions including direct aid contributions from the State of Minnesota, City of Minneapolis, and Minneapolis School District.

<u>Pension Plan Fiduciary Net Position</u> - Detailed information about the plan's fiduciary net position is available in a separately-issued TRA financial report. That report can be obtained at www.MinnesotaTRA.org, by writing to TRA at 60 Empire Drive, Suite 400, St. Paul, MN, 55103-4000; or by calling (651)-296-2409 or (800)-657-3669.

The District recognized total pension expense of (\$894,114) for all of the pension plans in which it participates.

NOTE 5 OTHER POSTEMPLOYMENT BENEFITS

<u>Plan Description</u> - The District's Plan is a single-employer defined benefit healthcare plan to eligible retirees and their spouses. The authority and requirement to provide these benefits is established in Minnesota Statutes Section 471.61, Subd. 2b. The benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through the District's collective bargaining agreements with employee groups.

<u>Benefits Provided</u> – The District provides healthcare benefits for retirees and their dependents. Benefits are provided through a third-party insurer, and the full cost of the benefits is covered by the plan.

<u>Funding Policy</u> - Retirees and their spouses contribute to the healthcare plan at the same rate as District employees. Since the premium is a blended rate determined on the entire active and retiree population, the retirees are receiving an implicit rate subsidy. The District provides postemployment healthcare benefits to qualifying retirees.

<u>Employees Covered by Benefit Term</u> – At June 30, 2019, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries	
currently receiving benefit payments	10
Active plan members	77
Total Members	87

<u>Total OPEB Liability</u> – The District's total OPEB liability of \$327,926 was measured as of July 1, 2018 and was determined by an actuarial valuation as of July 1, 2017.

<u>Actuarial Assumptions</u> – The total OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5 percent
Salary increases	3.0 percent
Healthcare Cost Trend Rates	6.25 percent in 2018 grading to 5.0 percent over 5 years

Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2016 Generational Improvement Scale.

The discount rate is based on the estimated yield of 20-year AA-rated municipal bonds. The overall single discount rate is 3.40%.

In the July 1, 2017 actuarial valuation, the entry age, level percentage of pay actuarial cost method was used.

Changes in the Total OPEB Liability:

		Total OPEB Liability
Balance at 6/30/2018	\$	361,894
Changes for the year:		
Service Cost		22,779
Interest Cost		11,921
Benefit Payments	_	(68,668)
Net Changes	_	(33,968)
Balance at 6/30/2019	\$	327,926

<u>Sensitivity of the Total OPEB Liability to Changes in the Discount Rate</u> – The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.4 percent) or one percentage point higher (4.4 percent) than the current rate:

District Total OPEB Liability										
1% Decrease Current 1% Increase										
(2.4%)	(3.4%)	(4.4%)								
\$ 343,163 \$	327,926 \$	313,131								

<u>Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates</u> – The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower (5.25 percent decreasing to 4.0 percent over 5 years) or one percentage point higher (7.25 percent decreasing to 6.0 percent over 5 years) than the current healthcare cost trend rates:

District Healthcare Cost Trend Rates

(5.25% decreasing to	(6.25% decreasing to	(7.25% decreasing to

<u>OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB</u> – For the year ended June 30, 2019, the District recognized OPEB expense of \$34,700. At June 30, 2019, the District reported outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Employer contributions paid subsequent to the measurement date	\$ 57,593	\$
Total	\$ 57,593	\$

\$57,593 reported as deferred outflows of resources related to OPEB resulting from District contributions to OPEB subsequent to the measurement date will be recognized as a reduction of the total other postemployment benefit liability in the year ending June 30, 2020.

NOTE 6 LONG-TERM LIABILITIES

Changes in the District's long-term liabilities for the year ended June 30, 2019 are as follows:

Summary of Long-Term Liabilities

		Beginning							
		Balance,					Ending	I	Due Within
	_	Restated	Additions	_	Retired	_	Balance	_	One Year
G.O. Bonds	\$	920,000	\$	\$	180,000	\$	740,000	\$	180,000
Premium on Bonds		10,666			2,135		8,531		2,135
Severance Payable		263,638	12,688	_		_	276,326		
Total Long-Term Liabilities	\$	1,194,304	\$ 12,688	\$	182,135	\$	1,024,857	\$	182,135

Severance payable is generally liquidated by the general fund.

The District's interest expense for the year ended June 30, 2019 was \$18,015.

A. G.O. School Building Refunding Bond

Date	Net		Current							Amounts				
of	Interest	Maturity		Original		Year		Balance	_	Due in 2	2019	9-2020		
Issue	Rate	Dates		Amount	_	Retired		6/30/19	_	Principal		Interest		
2012	2.25-2.5%	2020/23	\$	2,090,000	\$	180,000	\$	740,000	\$	180,000	\$	18,050		

Annual debt service requirements to maturity are as follows:

Year Ending				
June 30	_	Principal		Interest
2020	\$	180,000	\$	18,050
2021		190,000		14,000
2022		190,000		9,250
2023	_	180,000	_	4,500
	\$	740,000	\$	45,800

NOTE 7 SEVERANCE PAYABLE

The District has a severance plan for employees. The plan calls for employees to be paid for unused portions of their sick leave upon termination of employment. At June 30, 2019, the estimated liability under this plan was \$276,326.

NOTE 8 INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of June 30, 2019, is as follows:

Due to / from other funds:

Receivable Fund	Payable Fund	<u>Amount</u>
General	Nonmajor Governmental	\$2,174

The purpose of the interfund loan is to cover the cash shortage in the food service fund.

Interfund Transfers:

Transfer In	Transfer Out	<u>Amount</u>
Nonmajor Governmental	General	\$138,006

The purpose of the transfers is to cover the operating deficits in the food service and community service funds.

NOTE 9 CONTINGENCIES

The District receives significant financial assistance from numerous federal, state, and local governmental agencies in the form of grants and aids. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any disallowed claims will not have a

material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the District at June 30, 2019.

NOTE 10 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters and workers compensation. The District purchases commercial insurance coverage for such risks.

The District has joined together with other school districts in Minnesota in the Northwest Service Cooperative's Minimum Premium Funding Plan (Plan). The Plan is a public entity risk pool established as a health insurance purchasing pool for its members. The agreement for the formation of the Plan provides that the Plan will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$300,000. The pool and its members purchase reinsurance, currently with a \$300,000 specific stop loss attachment point and 110% aggregate stop loss attachment point. If the assets of the Plan were to be exhausted, members would not be responsible for the Plan's liabilities. The Northwest Service Cooperative retains the risk of the Plan's liabilities.

There has been no significant reduction in insurance coverage from the previous year in any of the District's policies. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 11 NEW PRONOUNCEMENTS

GASB Statement No. 84, *Fiduciary Activities*, provides guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

GASB Statement No. 87, Leases, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

INDEPENDENT SCHOOL DISTRICT NO. 363 NORTHOME, MINNESOTA NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2019

GASB Statement No. 90, *Majority Equity Interests*, provides guidance for reporting when a government has majority equity interest in legally separate organizations. An equity interest is explicit and measurable if the government has a present or future claim to the net resources of the entity and the method for measuring the government's share of the entity's net resources is determinable. If government's holding of that equity interest meets the definition of an investment, as defined by GASB No. 72, the equity interest should be reported as an investment and measured using the equity method and not as a component unit of the government. If a government's holding of a majority interest in a legally separate organization does not meet the definition of an investment, the holding of the majority equity interest results in the government being financially accountable for the organization and therefore, the government should report the legally separate organization as a component unit. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

Management has not yet determined the effect these Statements will have on the District's financial statements.

The District implemented GASB Statement No. 68 for its fiscal year ended June 30, 2015. Information for the prior years is not available.

NOTE 1 BUDGETARY DATA

Budgets are prepared for District funds on the same basis and using the same accounting practices as are used to account and prepare financial reports for the funds. Budgets presented in this report for comparison to actual amounts are presented in accordance with accounting principles generally accepted in the United States of America. All appropriations lapse at year end. Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting is not utilized in the governmental funds of the District.

The budget is adopted through the passage of a resolution. Administration can authorize the transfer of budgeted amounts within any fund. Any revisions that alter the total expenditures of any fund must be approved by the governing board. The legal level of budgetary control is the fund level. The annual appropriated budget is not legally binding on the District unless the District has a deficit fund balance which exceeds 2.5% of expenditures.

NOTE 2 EXCESS OF ACTUAL EXPENDITURES OVER BUDGET

The general fund had \$108,663 of expenditures in excess of budget for the year ended June 30, 2019.

NOTE 3 DEFINED BENEFIT PLANS

PERA

2018 Changes

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2015 to MP-2017.

- The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

Changes in Plan Provisions:

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.

- Interest credited on member contributions decreased from 4.0 percent to 3.0 percent, beginning July 1, 2018.

- Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.

- Contribution stabilizer provisions were repealed.

- Post-retirement benefit increases were changed from 1.0 percent per year with a provision to increase to 2.5 percent upon attainment of 90 percent funding ratio to 50 percent of the Social Security Cost of Living Adjustment, not less than 1.0 percent and not more than 1.5 percent, beginning January 1, 2019.

- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.

- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 Changes

Changes in Actuarial Assumptions:

- The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability.

- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

Changes in Plan Provisions:

- The State's special funding contribution increased from \$6 million to \$16 million.

2016 Changes

Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2035 and 2.5 percent per year thereafter to 1.0 percent per year for all years.

- The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 7.5 percent.

- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 Changes

Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2035 and 2.5 percent per year thereafter.

Changes in Plan Provisions:

- On January 1, 2015 the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised; the State's contribution of \$6 million, which meets the special funding situation definition, is due September 2015.

TRA

Changes in Actuarial Assumptions Since the 2016 Valuation:

- The Cost of Living Adjustment (COLA) was assumed to increase from 2.0 percent annually to 2.5 percent annually on July 1, 2045.

- The COLA was not assumed to increase to 2.5 percent, but remain at 2.0 percent for all future years.

- Adjustments were made to the combined service annuity loads. The active load was reduced from 1.4 percent to 0.0 percent, the vested inactive load increased from 4.0 percent to 7.0 percent and the non-vested inactive load increased from 4.0 percent to 9.0 percent.

- The investment return assumption was changed from 8.00 percent to 7.50 percent.

- The price inflation assumption was lowered from 2.75 percent to 2.50 percent.

- The general wage growth assumption was lowered from 3.50 percent to 2.85 percent for ten years followed by 3.25 percent thereafter.

- The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.

Changes in actuarial assumptions since the 2017 valuation:

- The COLA was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% in January 1, 2028.

- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.

- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.

- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least 62 with 30 years of service are exempt.

- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payment and purchases from members, employers is reduced from 8.5% to 7.5%, effective July 1, 2018.

- The employer contribution rate is increased each July 1 over the next 6 years, (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

NOTE 4 OTHER POSTEMPLOYMENT BENEFITS

Plan Changes:

- The Teachers' and Principals' post-employment subsidies based on unused sick leave are now paid to a VEBA as a lump sum instead of being held by the District to pay medical premiums. Therefore, these benefits are covered under GASB 16 instead of GASB 75 so they are not included in this report.
- We previously thought several employees with individual contracts were entitled to a GASB 75 postemployment subsidy based on unused sick leave (the same as Classified employees, etc.). According to recent contracts and discussions with the District, we no longer believe the Nurse, Computer Technicians, Superintendent, and Administrative Secretary (Indus) are entitled to GASB 75 postemployment subsidies.

Assumption Changes:

- The health care trend rates were changed to better anticipate short term and long term medical increases.
- The mortality tables were updated from the RP-2014 White Collar Mortality Tables with MP-2014 Generational Improvement Scale to the RP-2014 White Collar Mortality Tables with MP-2016 Generational Improvement Scale.
- The discount rate was changed from 3.50% to 3.40%.

Method Changes: The actuarial cost method was changed from projected unit credit to entry age as prescribed by GASB 75.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

To the Board of Education Independent School District No. 363 Northome, Minnesota

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 363 as of and for the year ended June 30, 2019, and the related notes to the financial statements, and have issued our report thereon dated November 12, 2019.

Legal Compliance

The *Minnesota Legal Compliance Audit Guide for School Districts*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards for school districts. Our audit considered all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for School Districts*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions.

Purpose of the Report

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education Independent School District No. 363 Northome, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 363, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 12, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings, we identified certain deficiencies in internal control that we consider to be a material weakness and a significant deficiency.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings as item 2019-002 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings as item 2019-001 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's Response to Findings

The District's response to the findings identified in our audit are described in the accompanying schedule of findings and corrective action plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

2019-001 FINDING

<u>Criteria</u>

Generally, a system of internal control contemplates separation of duties that no individual has responsibility to execute a transaction, have physical access to the related assets, and have responsibility or authority to record the transaction.

Condition

Lack of sufficient segregation of duties.

<u>Cause</u>

Size and budget constraints limiting the number of personnel within the accounting department.

Effect

The design of the internal control over financial reporting that could adversely affect the ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

Recommendation

The areas should be reviewed periodically and consideration given to improving the segregation of duties.

Views of Responsible Officials and Planned Corrective Actions

The District will review segregation of duties on an annual basis.

2019-002 FINDING

<u>Criteria</u>

The District does not have the internal resources to identify all journal entries required to maintain a general ledger and prepare full-disclosure financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP).

Condition

The District's payroll liability accounts were not reconciled during the year. The District's personnel prepare periodic financial information for internal use that meets the needs of management and the Board of Education. For the year ended June 30, 2019, the District's personnel assisted in the preparation of the year-end journal entries and reviewed a disclosure checklist. However, the District does not have internal resources to identify all journal entries required to maintain a general ledger and prepare full-disclosure financial statements for external reporting. The Board of Education is aware of this significant deficiency and addresses it by obtaining our assistance in the preparation of the District's annual financial statements.

<u>Cause</u>

Payroll liabilities were not reconciled due to oversight by the staff. The District does not have the internal expertise needed to handle all aspects of the external financial reporting.

Effect

Failure to reconcile payroll liability accounts could result in misstatement of liabilities and expenses. The Superintendent is aware of the financial reporting deficiency and addresses it by reviewing and approving the adjusting journal entries and the completed statements prior to distribution to the end users.

Recommendation

The District's staff should reconcile payroll liability accounts on a monthly basis. The District's financial statement preparation should be reviewed on an annual basis.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the recommendation and will review the payroll liabilities on a monthly basis. The financial statement preparation will be reviewed on an annual basis.

2019-001 FINDING

Contact Person – Superintendent

Corrective Action Plan – The following steps are being taken to mitigate the risk: the Superintendent will review and approve all journal entries, the board will approve checks, and the Superintendent will review all bank statements before turning the statements over to the business office for reconciliation.

Completion Date – Ongoing

2019-002 FINDING

Contact Person – Superintendent

Corrective Action Plan – Payroll and accounting staff will reconcile payroll liability accounts monthly. School district personnel will receive additional training to better prepare personnel to understand the financial statements and to work more closely with an accounting firm in the preparation of the financial statements. The District staff will review the prior year journal entries to determine training needs. The District staff has worked with their auditors and the ESV Accounting Office and is in the process of identifying required year end journal entries.

Completion Date – Reconciliation of the payroll liabilities will be reviewed monthly. The financial statement recommendation will be ongoing.

INDEPENDENT AUDITOR'S REPORT ON THE STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS OF THE STUDENT ACTIVITY ACCOUNTS

Members of the School Board, Advisors, and Students Independent School District No. 363 Northome, Minnesota

We have audited the accompanying statement of cash receipts and disbursements of the student activity accounts of Independent School District No. 363, for the year ended June 30, 2019, and the related note to the financial statement.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statement in accordance with the cash basis of accounting described in Note 1; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

The District has not established procedures to provide assurance that all cash collections are recorded in the accounting records. Accordingly, it was not practicable for us to extend our audit of such cash collections beyond the amounts recorded. The financial statement impact cannot be reasonably determined.

Qualified Opinion

In our opinion, except for such adjustments, if any, as might have been determined to be necessary had the cash collections referred to above been susceptible to satisfactory audit tests, the financial statement referred to above presents fairly, in all material respects, the cash transactions of the District's student activity accounts for the year ended June 30, 2019, and the cash balances at that date, in accordance with the cash basis of accounting as described in Note 1.

Basis of Accounting

We draw attention to Note 1 to the Student Activity Accounts Financial Statement, which describes the basis of accounting; this financial statement is prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

The note to student activity accounts financial statement is an integral part of this statement.

NOTE 1 STUDENT ACTIVITY ACCOUNTS

Student activity fund transactions are defined as extracurricular programs conducted for the motivation and enjoyment of students. These programs and activities are not offered for school credits nor required for graduation. Activities are generally conducted outside of school hours. The content of the activities is determined primarily by the students, under the guidance of a staff member or other adult.

Student activities are to be self-sustaining with all expenses paid by dues, admissions, or other student fund raising events.

The accounts of the student activity funds are maintained, and the accompanying financial statement has been prepared on the cash basis of accounting. Consequently, receipts are recognized when received rather than when earned and disbursements are recognized when paid rather than when the obligations are incurred.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE

To the School Board, Advisors, and Students Independent School District No. 363 Northome, Minnesota

We have audited in accordance with auditing standards generally accepted in the United States of America, the statement of cash receipts and disbursements of the student activity accounts of Independent School District 363, for the year ended June 30, 2019, and the related note to the financial statement, and have issued our report thereon dated November 12, 2019, which was qualified because the District has not established procedures to provide assurance that all cash collections are recorded in the accounting records, therefore, we were unable to audit the cash collections beyond the amounts recorded.

Compliance

The *Manual for Activity Fund Accounting*, issued by the Minnesota Department of Education, pursuant to Minnesota Statutes, provides uniform financial accounting and reporting standards for student activities. We have performed auditing procedures to test compliance with the provisions of this manual.

In connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the *Manual for Activity Fund Accounting*, except for item 2019-001(a) in the schedule of findings – student activity accounts. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions.

Purpose of the Report

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

Porady Martz

2019-001(a) FINDING

<u>Criteria</u>

The Manual for Activity Fund Accounting states that "any student activity account, which has been inactive for a maximum of one fiscal year, must be disposed of, unless the advisor submits a plan to the building principal (or designee) indicating why the activity has been inactive and why it should not be terminated."

Condition

There are several student activity accounts that did not have activity in the current year which have not been disposed of.

Cause

Oversight by the District staff.

Effect

The student activity account is not in compliance with the Minnesota Manual for Activity Fund Accounting.

Recommendation

Staff overseeing student activity funds should review student activity accounts that are to be disposed of each year and dispose of the accounts in the manner indicated on the student activity purpose form.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the recommendation and will dispose of inactive student activity accounts.

2019-001(a) FINDING
