

How to Determine Your Jacket Size

Step #1

Chest Measurement:
To arrive at the correct chest measurement; measure around the chest, under the arms and over the shoulder blades. Do not pull the tape tight, but let it lie comfortably on chest.

Step #2

Sleeve Length:
To arrive at the correct sleeve length; measure from the center of the back of the neck, over the end of the extended arm (bent at a 90 degree angle) to the wrist bone.

Step #3

Sizing Chart:
Select the correct sizing chart; men, women or children's. Find the chest measurement and sleeve length. Follow the sizing chart downward to determine the correct size. Select the size needed from column's number three or four depending on the type of jacket being ordered.

Men's Length

Under 5'7" order Short (S)
5'7" to 6'0" order Reg.
6'1" to 6'3" order Long (L)
6'3" and above order
XLong (XL)

Women's Length

Under 5' order Short (S)
5'0" to 5'6" order Reg.
5'7" to 5'10" order Long (L)
5'11" and above order
XLong (XL)
