1. Introduction of Guests: Welcome WIAA Staff Cindy Adsit
2. Approval of Monday, November 25, 2024 Executive Board Minutes **M/S/P**
3. Financial Report:           Checking: \$47,450.01  
  Savings: \$10,006.74

Colleen reported our financial position is significantly lower than one year ago. Several areas contribute to the difference – 4A had no football teams qualify in round 2 where we would see income. Colleen went through each sport to identify any abnormal issues. There are some added district events because of the 2A classification. Small schools have more challenges finding venues and staffing i.e. athletic trainers. We will continue to work with schools to help provide quality events in the most efficient way.

4. Approval of Vouchers: Vouchers #24777 through #24910 in the amount of \$10,006.74 **M/S/P**
5. Eligibility Report: Yonni Mills

Yonni reviewed the winter eligibility hearings and process. Approval rate for winter was ~48% (typically ~70%). Some hearings are becoming more and more complex. School AD's are encouraged to review the eligibility forms on the district website and are very helpful. We have good participation in the hearing process with AD's and Principals participating as panel members. New AD's are encouraged to contact Yonni and be an observing role so they understand the process better.

Yonni along with Lance Gatter and Jeff Lowell are providing mentoring of new AD's.

A discussion regarding how the track experiment for the last two years has gone. Most feedback is that coaches are very appreciative of being able to fill the lanes.

Motion:

District Tournament Format The size of the District Tournament is determined by doubling the state allocations and going to the next reasonably sized tournament.

In District track meets when there are open lanes in a heat after all allocated lanes have been filled by each league; the remaining open lanes will be filled to achieve a full heat. Additional heats will not be added, only the open lanes should be filled. The process for filling lanes needs to be agreed upon each year by the leagues involved in that classification. This allows those classifications that are in bi-district agreements to negotiate in good faith on how they fill those remaining open lanes. This can include but is not limited to; next fastest times or the allocation the state has figured out for each league.

*Field Events on a trial basis which will be reviewed after the 2025 season:*

*The total number of additions that are added to the running heats to fill any open lanes will then be added to the field events*
