

When should children stay home from school?

- Fever (100 degrees or higher)
- Diarrhea (twice or more in the last 24 hours)
- Vomiting (once or more in the last 24 hours)
- Severe cough and cold
- Pinkeye (conjunctivitis)
- Headaches or sore throats that are accompanied by fatigue or fever
- Rashes (unless diagnosed and cleared to come to school)

When should you send your child back to school?

- Fever-free for **24 hours without medication**
- No vomiting or diarrhea during the last **24 hours**
- Prescribed antibiotics have been given for **24 hours**
- His/her appetite and energy level have returned to normal

Please feel free to call the school nurses, Erin and Kelly, at 837-6030 or Aimee, at 837-6821, with any questions.

Thank you.
