Adult Role  
Models**

*Youth are more likely to grow up healthy when parent(s) and other adults model positive, responsible behavior.*

**27%**

*of youth surveyed by Search Institute have this asset in their lives.\**

**What Are Assets?**

*Assets are 40 key building blocks to help kids succeed. "Adult role models" is one of six boundaries and expectations assets.*

\* Based on Search Institute surveys of almost 100,000 6th- to 12th-grade youth throughout the United States.

## What a Difference a Hero Makes

**A**s a single parent, Eileen felt strongly that her 10-year-old son, John, needed a male role model in his life. Her father and two brothers enjoyed being with her son, but all three lived out of state.

One day, Carlos, a neighbor, mentioned how much he and his wife missed being around children. Their two children had recently left for college, and Carlos was wishing he could find another child to spend some time with.

That was the beginning of an important relationship that developed between Carlos and John. The two would attend special events together or just hang out to talk. For one of John's birthdays, Carlos wrote and taped a story called 'John's Fictitious Adventure.'

'The more time they spent together, the more John's self-esteem grew,' Eileen says. 'Grandparents, uncles, aunts, and cousins are important, but an adult who singles out a child and chooses to spend time with that child makes a unique difference.'

### time together

*Three ways to be an adult role model for your child:*

- 1.** *Treat your child with love and respect.*
- 2.** *Model appropriate behavior during difficult times. When you make mistakes, admit them.*
- 3.** *Spend time together. Often. Be involved in your child's life on a daily basis.*

### Kids' #1 NEED

*What 10- to 15-year-olds need most is positive social interaction with adults, says Dr. Peter C. Scales, a Search Institute author and researcher. These interactions expose young people to real-life heroes.*

### Reflect Back

**Think back to your childhood. Who were your role models when you were a child? A teenager? A young adult? How about now?**

## What Teens Want to Know from Adults

Sometimes adults can feel awkward around children and teenagers and not know what to talk about. They usually don't see themselves as 'heroes' or even 'role models.' Yet when adults take time to be themselves with young people, children and youth learn a lot. Psychologist Tore Hayden asked several hundred young people what they would like to talk about with adults:

1. Family matters and decisions
2. Controversial issues
3. Emotional issues
4. Big questions and the "whys" of the world
5. The future
6. Current affairs
7. Personal interests
8. What their parents were like at their age

**Quick Tip:**  
You are your child's most important role model.

### talk together

Questions to discuss with your child:

- Which famous people do you admire most? Why?
- Which adults (whom you know) do you look up to? Why?
- What have you learned from adults that has helped or inspired you?
