For absences other than illness, your leave request must be **approved** by your supervisor **before** you can take the leave.

Further information about these leaves can be found in the Master Agreement/Wage and Benefit Agreements.

ACCIDENTS & INJURIES - STAFF

All staff members are covered under the Minnesota Workers' Compensation Act and consequently are covered for injuries in the line of duty. All such injuries, no matter how small, should be reported to the principal as soon as possible, **but no later than 48 hours after the injury occurred**. If the claim involves death or serious injury you must notify the District Office within 24 hours. For further information see section on Workers' Compensation.

See APPENDIX A for the Guidelines for Handling School Accidents.

AGENTS OR SOLICITORS

No agent, solicitor, collector, or other person shall be allowed to take time or attention of any pupil or School District employee during school or office hours, except those employees authorized to make or recommend purchases. Even in this instance, the agent must first call at the office to obtain administrative permission before calling on staff during school time.

This rule does not apply to the authorized representative of any one of the group insurance plans, who may see staff in the lounges during their preparation periods.

ANNUAL NOTIFICATIONS

The following annual notices are posted on the school district website under the "*Superintendent's Corner*":

Annual Asbestos Notification, Bullying Prohibition Policy, Criminal History Background Checks, Family Educational Records Privacy Act, Indoor Air Quality, Lead-in-Water Notice, Pesticide Notice and Special Services Available through Stewartville Public Schools.

APPLICATIONS

All external applications will be completed through the **Frontline Recruiting and Hiring system (Formerly known as AppliTrack)** on our website. Open positions are posted for a specific time frame. Applications will not be accepted after the closing date.

CLOSING SCHOOL - INCLEMENT WEATHER

Many parents will bring students even though the buses do not operate a complete route. Announcements of school closings will be made over the Skylert System, posted on the website, and made over radio stations KROC (106.9 FM), KYBA (105.3 FM), and television stations KTTC, KAAL, and KIMT.

In the event of an early closing of school due to inclement weather or bad roads, teachers will be required to stay until all buses and students leave.

Direct supervision can be defined as:

- Physically present with the students when they are assigned to you;
- Actively engaged in supervising the students;
- Develop and enforce reasonable rules and procedures to keep students healthy and safe.

Areas of general supervision include both classrooms and hallways during the school day. Certain areas such as the gym, weight-room, science labs, industrial education labs, FACS, and swimming pool are considered to be hazardous areas without proper supervision and/or eyewear. Students are forbidden to be in those areas without staff permission and staff supervision both during the normal school day as well as before and after school hours.

General safety reminders

1. Lock all classroom doors and windows at the end of the day.
2. When leaving the building, be sure doors are shut securely.
3. If coming into the building after hours or on the weekend, make sure entry/exit doors are secure.
4. Consistently wear employee ID badges.
5. Lock classroom doors if leaving the room unoccupied
6. Review and be familiar with emergency drill procedures.

TELEPHONE CALLS

Each classroom is provided with a phone and each staff member is supplied a voice mail account. Calls can be transferred to/from each internal phone (Central Education Center, Bonner, Bear Cave Intermediate School, Middle School and High School.)

TOBACCO-FREE SCHOOLS

The School Board has adopted a policy that states that all school grounds, buildings, and vehicles shall be tobacco free. No smoking is allowed less than 300 feet from school property. This policy was established in recognition of the School District's responsibility of providing a healthy, comfortable, and productive environment for all students, staff and citizens.

Furthermore, it is felt that education has a central role in establishing patterns of behavior to good health and should take measures to help its students to resist tobacco use. Curriculum related to tobacco-use prevention is part of our educational program. Also, the School District is concerned about the health of its employees and also recognizes the importance of adult role-modeling for students during formative years. Therefore, the district policy promotes non-tobacco use among its students, staff, and guests. Smoking cessation programs will be made available to students, staff, and patrons on a periodic basis.

The policy establishes the following if there should be a violation of this policy by staff:

1. Staff member shall receive an informal conference identifying the problem or violation.
2. Staff member shall receive a verbal reprimand for the 2nd violation. Mandatory participation in a School District sponsored smoking cessation class is required.
3. Staff member shall receive one written warning, with a copy placed in the personnel file, for the third violation.
4. Any additional violations shall be subject to procedure of Minnesota Statute 125.12 (termination of teachers), as continued violations of this policy shall be considered insubordination.

TRANSPORTATION FOR ACTIVITIES (BUSES)

Instructors will occasionally desire the use of a bus or buses for the transportation of students. Transportation request forms for activities are located in your building's main office or workroom and on the District Transportation Department webpage. This request form must be completed and submitted to the Activities Administrative Assistant, at least 2 weeks or more before the desired date. If you have not received confirmation of transportation, be sure to call or email the Activities Administrative Assistant to make sure a bus has been ordered.

Teachers are not to arrange for transportation directly with the bus owners themselves. There are records to be kept for each activity; and in order for this to be properly done, the ordering of buses must be done by the Activities Administrative Assistant. **Upon return from all trips, staff members are responsible to ensure all students have been picked up or are on their way home. Staff members may not leave students unattended at any time.**

TRAVEL ALLOWANCE AND REIMBURSEMENT

Staff members will submit their own claims for reimbursement for travel and other reimbursable expenses. Forms are available on the school's website and must be signed by the principal and coded before submitting to the superintendent's office. Car mileage for school business will be paid at the School Board approved rate per mile. School cars are to be used if available.

To receive reimbursement for use of personal cars, the appropriate transportation form must be completed. One-way only reimbursement for mileage of a personal vehicle will be given if a school vehicle would have been available for use.

Itinerant staff need to submit mileage reimbursement twice per year: Submit on January 15 for the previous months of July – December and June 15 for the previous months of Jan - June mileage. June reimbursement must be submitted by June 15th or it will not be reimbursed.

VEHICLES

School vehicles are available for use by the staff on school-related business. There are requirements that must be met in order to transport students in school vehicles. Please email the District Administrative Assistant to arrange training. The use of school vehicles is requested by sending an email to the District Administrative Assistant. Please request school vehicles in advance. When school vehicles are used, they are to be returned to the garage immediately after use. Many times the vehicles are signed out for as early as 5:00 a.m., and they must be in the garage to be available for use. When a vehicle is returned to the garage, be sure to shut the windows and lock the doors.

Arrangements are to be made beforehand as to how and where keys are to be returned if you return after office hours. Do not leave the keys in the vehicle. Others may have the vehicle signed up the same day and must be able to obtain the keys. If no one is scheduled to use the vehicles and if the office is closed upon return from the trip, the keys must be returned to the District Administrative Assistant by 8:00 a.m. the following morning. Do not give them to someone else to return, unless otherwise instructed.

If the gas tank is less than half full, fill the tank before returning the vehicle. Staff having to transport students are given preference over individuals going to meetings, etc.; and out-of-town trips are given preference over in-town trips, unless students are involved. If your request for a vehicle has been granted and for some reason you may have to be "bumped", you will be notified as far in advance as possible.

Upon return from all trips, staff members are responsible to ensure all students have been picked up or are on their way home. Staff members may not leave students unattended at any time.

APPENDIX A

ACCIDENTS AND/OR INJURIES - GUIDELINES

WHAT TO DO:

1. Obtain names, addresses, telephone numbers and other identifying information from the parties involved and any witnesses, police or other officials.
2. Immediately report all information to your building principal for prompt transmittal to the insurance company. The principal should include all pertinent information when reporting to the insurance company.
3. Accidents involving serious bodily injury or unusual circumstances or when conditions may rapidly change that would affect the opportunity for early documentation of facts, call the building principal immediately.
4. Cooperate with the insurance company to conduct a complete and thorough investigation. Make records available to the investigator and assist in arranging for witnesses, teachers, school officials, etc., to be available for interviews.
5. If an accident involves the use of products, equipment or machinery, preserve the "evidence" for the insurance company investigator. It may be necessary to put certain products, equipment, or machinery in storage for use at a later date. The investigator will be able to help with this. DO NOT change or alter the condition of any products, equipment or machinery involved in an accident.
6. If an accident involves a continually or rapidly changing condition that may have a bearing on how the accident happened, do your best to document the conditions that existed at the time of the accident. This may involve the weather, construction projects, or similar situations. The "evidence" can be preserved by prompt inspection and documentation. Often a photograph is helpful before conditions change and an investigator is able to get to the scene.

WHAT NOT TO DO:

1. Make no commitments or volunteer to make any payments, assume any obligations or incur any expenses. (This could result in problems with the School District's insurance coverage.)
2. Make no admissions of liability, fault or responsibility. (Let the insurance company investigate and determine if there is any legal responsibility.)
3. Do not discuss the accident with anyone or give any information, records or reports to anyone (other than as required by law, such as a police officer) without first consulting with the building principal.
4. Do not permit "outsiders" to have access to the premises for purposes of reviewing records or documents or inspecting the premises or equipment or machinery thereon. Refer such requests to the building principal. (This generally applies to other parties who are conducting an investigation on behalf of a party making a claim against the school.)
5. Do not allow students to be interviewed by "outsiders" during school hours.

APPENDIX E

STEPS FOR MANDATORY REPORTING

1. Document in writing any report that you receive or observations that you have witnessed in regards to any type of “alleged” abuse (neglect, emotional, physical, sexual, etc.). **NOTE:** We are **not** to report this information to parents, unless directed to by Social Services/Law Enforcement/Dept. of Education!
2. Determine the county for which the alleged abuse occurred and contact Social Services or Law Enforcement for that county. The Dept. of Education is contacted when there is concern about maltreatment of public school students by school employees. The “oral report” needs to be made within 24 hours, and it is to be followed up within 72 hours by a “written report.” **NOTE:** The initial reporter must identify himself and his position in order to have it on record that he fulfilled his legal responsibility. Reporting to your Building Principal or any member of the District Support Staff doesn’t release the initial reporter from his reporting obligation. Following is a list of phone numbers and addresses for the three counties that have students attending Stewartville Schools:

	<u>SOCIAL SERVICES</u>	<u>LAW ENFORCEMENT</u>
Olmsted County (Rochester)	328-6400	285-8300
Fillmore County (Preston)	765-2175	765-3874
Mower County (Austin)	437-9700	437-9794
Olmsted Social Services Child Protection Unit 151 4 th Street SE Rochester, MN 55904	Fillmore Social Services Child Protection Unit Courthouse Building Preston, MN 55965	Mower Human Services 1301 18 th Ave. NW, Suite A Austin, MN 55912

3. Submit a copy of the written report to the Building Principal, unless the allegation concerns the Building Principal for which the report should then be filed with the Superintendent.

When you have completed the above three steps, you have fulfilled your legal responsibility as a mandated reporter which makes you immune from civil and criminal liability. Data Privacy Law now goes into effect and information received from the investigating agency may be minimal or non-existent. Also, it is extremely important that this “alleged” case NOT BE DISCUSSED WITH ANYONE OTHER THAN DISTRICT SUPPORT STAFF MEMBERS (Principal, Social Worker, Counselor, Psychologist, Nurse, etc.). CONFIDENTIALITY is important to all involved!

The following report is submitted in accordance with the provisions of Minnesota Statutes 626.556, Sub-Division 7.

APPENDIX G

STEWARTVILLE PUBLIC SCHOOL Progressive Discipline Policy

Purpose

Disciplinary action is one dimension of performance evaluation and employee development. It is a corrective process to help employees overcome work-related shortcomings, strengthen work performance, and achieve employment success. This procedure should be conducted in reasonable ways that support the concept of progressive discipline while minimizing disruption to Stewartville Public Schools. Employee discipline is a standard part of the Stewartville Public School's Policy and should be used by all supervisors to enhance employee behavior and performance as well as to maintain proper workplace order and safety. This policy is not intended to modify any employee's rights under any existing collective bargaining agreement with Stewartville Public Schools.

Definition

Stewartville Public Schools utilizes a system of progressive discipline to address problem performance or unacceptable behavior by employees. Progressive discipline should be applied to specific types of behaviors and offenses. Normally, this form of discipline is initiated at the lowest organizational level and the prescribed corrective action should be appropriate to the nature of the offense or behavior. Therefore, the progression of discipline should begin with a less severe response and graduate, accordingly, to more severe action, as warranted. Although initiating steps at low levels of the progressive discipline process is the normal response, there are times when the offense may call for more severe corrective action—up to and including termination of employment (refer to “Exceptions” below). Finally, this policy in no way limits the authority of management to take any appropriate action(s) to resolve behavioral and safety problems.

How Progressive Discipline Works

In a progressive discipline system, the severity of the penalty ordinarily increases with each infringement of the rules. Among the advantages of a progressive discipline system is the fact that one can work with an employee and positively correct or improve that employee's behavior or performance without immediately resorting to more severe disciplinary action.

Progressive Discipline Process

1. Written Warning #1
2. Written Warning #2
3. Suspension
4. Termination

General Guidelines

Supervisors are not limited to beginning at the written warning #1 stage for every infraction. Movement through the progressive discipline matrix is not limited to infractions of the same rule, but rather open to any subsequent violations. For example, an employee who receives a written warning for tardiness would not necessarily receive another written warning for disrespectful behavior toward a fellow worker, but could receive a written warning or suspension since this is a continued occurrence of infractions. The decision rests with the supervisor (after consultation with Personnel, if appropriate) to apply the appropriate discipline for a specific violation. Obviously there are many factors which may affect the decision of the supervisor. Generally, however, all similar violations are treated in a similar fashion, unless there are aggravating or mitigating circumstances. In every case, records must be prepared by the supervisor, using the appropriate forms, to adequately explain all circumstances.

Positive Reinforcement

While discipline is critical to dealing with problem performance or unacceptable behavior by employees, recognizing positive actions and rewarding superior performance are equally important. Stewartville Public Schools encourages supervisors to be on the lookout for employees whose behavior is above standard. Clearly, employees who are innovative, industrious, and dedicated need to be recognized and rewarded.

Supervisors should strive to “observe their employees doing something good.” Hard work and diligence need recognition just as poor performance and unacceptable behavior need discipline. Quality supervision is a blend of both elements.

Documentation

It is absolutely necessary that all disciplinary action taken be documented. Therefore, supervisors shall document all disciplinary action taken on the Stewartville Public Schools’ Progressive Discipline form, HR Form 218 (attached). All documentation must be factual and complete. Supporting letters and other documentation may accompany the Stewartville Public Schools’ Progressive Discipline form, HR Form 218. In all cases, the documentation should contain:

- A clear description of the behavior which prompted the discipline;
- A record of the disciplinary action taken by the supervisor;
- The required change in the employee’s behavior or performance, and the possible consequences if that behavior or performance does not improve;
- The specific time frame in which the employee must effect that change.

The Four Types of Disciplinary Action

WRITTEN WARNING #1

When a supervisor determines that grounds for disciplinary action exist due to unacceptable performance or behavior, a written warning shall be communicated with the employee as soon as possible. Written warnings should describe the details of the offense, why it is unacceptable, the corrective action plan and the range of possible consequences should the unacceptable performance or behavior continue. Each warning shall be signed and acknowledged by the supervisor and employee and shall be documented in detail using HR Form 218.

WRITTEN WARNING #2 WITH CORRECTIVE ACTION PLAN

When a supervisor determines that grounds for disciplinary action exist and the employee has already received a written warning #1 for the same or similar behavior, or there appears to be a pattern of unacceptable behavior (although not necessarily similar), or the severity of the action precludes a lesser action, the supervisor should issue a written warning #2 with a corrective action plan. This step will include all information and requirements contained in the written warning #1, including signatures of the supervisor and the disciplined employee. The employee may respond in writing to the corrective action and that response shall be included in the employee’s personnel file along with a copy of the completed Stewartville Public Schools’ Progressive Discipline form, HR Form 218, routed as indicated on the form.

SUSPENSION

When an employee’s performance or behavior continues to be substandard or the employee commits a major offense, a suspension may be warranted. A suspension is a set amount of time off from work, with or without pay. All of the information required for written warnings should be included on the suspension notice. In addition to a written notice, the matter should be thoroughly discussed with the employee to ensure the situation and required corrective actions are clearly understood. The supervisor must consult with the superintendent before approving any suspension of an employee. Once again, the employee shall acknowledge the suspension, in writing, and may respond in writing to the action taken. All pertinent information shall be documented on the Stewartville Public Schools’ Progressive Discipline form, HR Form 218 and placed in the personnel file with copies routed as specified on the form.

Note: One form of suspension is “decision-making leave.” This is normally one day of paid suspension during which time the employee must decide if he/she is going to change the inappropriate behavior or performance. If the employee decides to make this change, he/she would sign an agreement, indicating he/she understands

the consequences of failure to live up to the standards. If the employee is unwilling to accept the required standard of performance or behavior, his/her employment with Stewartville Public Schools would be terminated.

TERMINATION

An employee may be terminated for unacceptable performance, for repeated minor offenses, or for major offense violations. In such cases, (other than the "Gross Misconduct" listed below), the supervisor shall provide such documentation as required to illustrate that the employee was repeatedly counseled concerning performance deficiencies or violations. Records shall indicate that the employee was provided with detailed direction for improvement and warned of possible consequences if that behavior or performance did not improve or violations did not cease within a specified period of time. However, because of the serious nature of certain infractions listed in "Gross Misconduct", an employee may be terminated immediately for just cause without a previous series of warnings.

Note: In all cases of termination, the employee has the right to respond in writing and appeal the action of the supervisor. All cases of termination shall be coordinated with the superintendent as soon as possible and before such action is taken.

Employees terminated for reasons of "Gross Misconduct" may not be eligible for continuation of Health coverage under federal COBRA laws.

GROSS MISCONDUCT

(Non-exhaustive examples of just cause for possible immediate termination) In all cases the supervisor's discretion is imperative. The focus should remain on safety and/or the severity of the offense. This list is simply meant to conceptualize issues that may warrant termination.

- Possessing or consuming non-prescribed narcotics or illegal substances on Stewartville Public Schools' property
- Reporting to work under the influence of drugs and/or alcohol
- Instigating a fight on Stewartville Public Schools' property
- Possessing a weapon or explosives on Stewartville Public Schools' property
- Intentional harassment, including sexual harassment
- Insubordination
- Theft of Stewartville Public Schools' property
- Theft of personal property of other employees or of the public while on the job
- Misrepresentation of facts when seeking employment
- Violation of confidentiality regarding Stewartville Public School information
- Extended unexcused absences
- Falsification of time records for oneself or another employee
- Rude, profane or other inappropriate conduct with members of the public

Veterans Preference

Prior to dismissal, any employee that is an honorably discharged veteran shall be notified in writing of the intent to discharge him or her and of the right to request a hearing under the Veteran's Preference Act.

STEWARTVILLE PUBLIC SCHOOLS Social Networking Guidelines

Guidelines for Educational Staff Using Social and Educational Networking Sites

Social networks are rapidly growing in popularity and use by all ages in society. Many popular social networks are web-based, commercial, and not purposely designed for educational use. For individuals, social networking sites provide tremendous opportunities for staying in touch with friends and family.

Educational networking sites are also growing in use. These sites are used by educational staff for both professional development and as a teaching tool, and are usually restricted to selected users and not available to the general public.

As educational staff, we have a professional image to uphold and how we conduct ourselves online impacts this image. As reported by the media, there have been instances of educational staff demonstrating professional misconduct while engaging in inappropriate dialogue about their schools and/or students or posting pictures and videos of themselves engaged in inappropriate activity online. Mistakenly, some educational staff feel that being online shields them from having their personal lives examined. But educational staffs' online identities are very public and can cause serious repercussions if their behavior is careless.

One of the hallmarks of online networks, both social and educational, is the ability to "friend" others – creating a group of others that share interests and personal news. The district strongly discourages educational staff from accepting invitations to *friend* students within personal social networking sites. When students gain access into an educational staff's network of friends and acquaintances and are able to view personal photos and communications, the student-educational staff dynamic is altered. By friending students, educational staff provide more information than one should share in an educational setting. It is important to maintain a professional relationship with students to avoid relationships that could cause bias in the classroom.

The district does recognize the value of student/educational staff interaction on educational networking sites. Collaboration, resource sharing, and student/educational staff and student/student dialog can all be facilitated by the judicious use of educational networking tools. Such interactivity is a critical component of any online class and can greatly enhance face-to-face classes. Yet since this is a new means of communication, some guidelines are in order for educational networking as well.

For the protection of your professional reputation, the Stewartville School District recommends the following practices:

Guidelines for the use of social networking sites by all staff:

- Do not accept students as friends on personal social networking sites. Decline any student-initiated friend requests.
- Do not initiate friendships with students
- Remember that people classified as "friends" have the ability to download and share your information with others.
- Post only what you want the world to see. Imagine your students, their parents, your administrator, visiting your site. It is not like posting something to your website or blog and then realizing that a story or photo should be taken down. On a social networking site, basically once you post something it may be available, even after it is removed from the site.
- Do not discuss students or coworkers or publicly criticize school policies or personnel.
- Visit your profile's security and privacy settings. At a minimum, educators should have all privacy settings set to "only friends". "Friends of friends" and "Networks and Friends" open your content to a large group of unknown people. Your privacy and that of your family may be a risk.

Guidelines for the use of educational networking sites by all staff:

- Let your administrator, fellow co-workers and parents know about your educational network.
- When available, use school-supported networking tools.
- Do not say or do anything that you would not say or do as an educational staff member in the classroom. (Remember that all online communications are stored and can be monitored.)
- Have a clear statement of purpose and outcomes for the use of the networking tool.
- Establish a code of conduct for all network participants.
- Do not post images that include students without verifying there is an appropriate parental release form on file.
- Pay close attention to the site's security settings and allow only approved participants access to the site.

Guidelines for *all* networking sites by all staff:

- Do not use commentary deemed to be defamatory, obscene, proprietary, or libelous. Exercise caution with regards to exaggeration, colorful language, guesswork, obscenity, copyrighted materials, legal conclusions, and derogatory remarks or characterizations.
- Weigh whether a particular posting puts your effectiveness as a staff member at risk.
- Due to security risks, be cautious when installing the external applications that work with the social networking site. Examples of these sites are calendar programs and games.
- Run updated malware protection to avoid infections of spyware and adware that social networking sites might place on your computer.
- Be careful not to fall for phishing scams that arrive via email or on your wall, providing a link for you to click, leading to a fake login page.
- If a staff member learns of information on the social networking site that falls under the mandatory reporting guidelines, they must report it as required by law. Please stay informed and cautious in the use of all new networking technologies.

If you choose not to follow these guidelines, you take full responsibility for your actions which may put you at risk for consequences of which we have no control.
