

# **WINNER SCHOOL DISTRICT 59-2 OFFICIAL SCHOOL BOARD POLICY**

## **Local Board of Education/Administrative Support Team**

The primary responsibility for assuring the provision of educational opportunities to all children and youth is placed upon the Winner Board of Education. The school board, elected by the people is a unit of the state government and functions within the statutory powers provided it by the Legislature -- and within the regulations of the State Board of Education. Constitutional provisions and the Courts act as a check on these three (3) bodies as well as on the action of the school board itself.

The Administrative Support Team (AST) of the Winner School District consists of the Superintendent of Schools; the Middle School/High School Principal; Elementary Principal; Middle School Dean of Students; and the Business Manager. The AST has the ultimate responsibility of supporting the Winner Board of Education by assuring that its educational philosophy benefits the students of this district.
