

**WINNER SCHOOL DISTRICT 59-2
OFFICIAL SCHOOL BOARD POLICY**

PHILOSOPHY OF ACTIVITIES

The Winner Board of Education believes that pupil activities at school are an integral part of the total educational program and should be utilized as a means for developing wholesome attitudes and human relations' skills (as well as knowledge and skills). The Winner Board of Education believes that school citizenship, as reflected within student activities is a measure of the achievement of important school goals.

Educators and parents realize that students of school age need a balanced program of academics, athletics, and non-athletic activities. This balance helps promote the proper growth and development of all students who participate.

The ACTIVITY opportunities at Winner are provided through both curricular and non-curricular programs that are competition and/or public performance oriented and non-competitive, interest only, activities.

The Winner Board of Education further believes that a program of student activities should be developed with a philosophy that academic classroom performance is paramount, and that all pupil participation be subject to all regulations adopted by the Board of Education.
