Gfeller–Waller NCHSAA Student–Athlete & Parent/Legal Custodian Concussion Information Sheet

What is a concussion? A concussion is an injury to the brain caused by a direct or indirect blow to the head. It results in your brain not working as it should. It may or may not cause you to black out or pass out. It can happen to you from a fall, a hit to the head, or a hit to the body that causes your head and your brain to move quickly back and forth.

How do I know if I have a concussion? There are many signs and symptoms that you may have following a concussion. A concussion can affect your thinking, the way your body feels, your mood, or your sleep. Here is what to look for:

Thinking/Remembering	Physical	Emotional/Mood	Sleep
Difficulty thinking clearly	Headache	Irritability-things bother you more easily	Sleeping more than usual
Taking longer to figure things out	Fuzzy or blurry vision	Sadness	Sleeping less than usual
Difficulty concentrating	Feeling sick to your stomach/queasy	Being more moody	Trouble falling asleep
Difficulty remembering new information	Vomiting/throwing up	Feeling nervous or worried	Feeling tired
	Dizziness	Crying more	
	Balance problems		
	Sensitivity to noise or light		

Table is adapted from the Centers for Disease Control and Prevention (<http://www.cdc.gov/concussion/>)

What should I do if I think I have a concussion? If you are having any of the signs or symptoms listed above, you should tell your parents, coach, athletic trainer or school nurse so they can get you the help you need. If a parent notices these symptoms, they should inform the school nurse or athletic trainer.

When should I be particularly concerned? If you have a headache that gets worse over time, you are unable to control your body, you throw up repeatedly or feel more and more sick to your stomach, or your words are coming out funny/slurred, you should let an adult like your parent or coach or teacher know right away, so they can get you the help you need before things get any worse.

What are some of the problems that may affect me after a concussion? You may have trouble in some of your classes at school or even with activities at home. If you continue to play or return to play too early with a concussion, you may have long term trouble remembering things or paying attention, headaches may last a long time, or personality changes can occur. Once you have a concussion, you are more likely to have another concussion.

How do I know when it's ok to return to physical activity and my sport after a concussion? After telling your coach, your parents, and any medical personnel around that you think you have a concussion, you will probably be seen by a doctor trained in helping people with concussions. Your school and your parents can help you decide who is best to treat you and help to make the decision on when you should return to activity/play or practice. Your school will have a policy in place for how to treat concussions. You should not return to play or practice on the same day as your suspected concussion.

You should not have any symptoms at rest or during/after activity when you return to play, as this is a sign your brain has not recovered from the injury.

This information is provided to you by the UNC Matthew Gfeller Sport-Related TBI Research Center, North Carolina Medical Society, North Carolina Athletic Trainers' Association, Brain Injury Association of North Carolina, North Carolina Neuropsychological Society, and North Carolina High School Athletic Association.

	A concussion is a brain injury, which should be reported to my parent(s) or legal custodian(s), my or my child's coach(es), or a medical professional if one is available.	
	A concussion cannot be "seen." Some signs and symptoms might be present immediately; however, other symptoms can appear hours or days after an injury.	
	I will tell my parents, my coach and/or a medical professional about my injuries and illnesses.	Not Applicable
	If I think a teammate has a concussion, I should tell my coach(es), parent(s)/ legal custodian(s) or medical professional about the concussion.	Not Applicable
	I, or my child, will not return to play in a game or practice if a hit to my, or my child's, head or body causes any concussion-related symptoms.	
	I, or my child, will need written permission from a medical professional trained in concussion management to return to play or practice after a concussion.	
	Based on the latest data, most concussions take days or weeks to get better. A concussion may not go away, right away. I realize that resolution from a concussion is a process that may require more than one medical visit.	
	I realize that ER/Urgent Care physicians will not provide clearance to return to play or practice, if seen immediately or shortly after the injury.	
	After a concussion, the brain needs time to heal. I understand that I or my child is much more likely to have another concussion or more serious brain injury if return to play or practice occurs before concussion symptoms go away.	
	Sometimes, repeat concussions can cause serious and long-lasting problems.	
	I have read the concussion symptoms listed on the Student-Athlete/ Parent Legal Custodian Concussion Information Sheet.	
	I have asked an adult and/or medical professional to explain any information contained in the Student-Athlete & Parent Concussion Statement Form or Information Sheet that I do not understand.	

By signing below, we agree that we have read and understand the information contained in the Student-Athlete & Parent/Legal Custodian Concussion Statement Form, and have initialed appropriately beside each statement.

Please read this Notice and Release carefully and make sure that you understand its provisions before deciding whether to permit your student-athlete to participate in the Middle School Football Program.

1. The Charlotte-Mecklenburg School System provides accident insurance in the amount of \$25,000 at no charge for all students participating in the Middle School Football Program. **The Middle School Football accident insurance benefits provided by the school system will pay only toward those covered expenses in excess of expenses recoverable from other insurance.** This means that any applicable personal insurance that you may carry would apply first, and the Middle School Football Accident Insurance would apply only to those covered expenses not paid by your other insurance. If you do not have other insurance, the Middle School Football Accident Insurance will pay toward covered expenses up to \$25,000.
2. There are limitations under the Middle School Football Accident Insurance coverage. **It will not always pay all of the charges incurred for every accident.** This insurance only provides certain benefits for injury or loss due to practicing and playing in the Middle School Football program. For a summary of the coverage benefits, please refer to the Student Accident Insurance Information (for Middle School Football) that has been furnished to each student interested in participating in the Middle School Football Program. If you did not receive the information or if you have questions about the insurance coverage provided to participants in the Middle School Football Program, contact the Athletic Director/Coach where your student-athlete is enrolled.
3. Every player is required by the National Federation of State High School Athletic Associations (NFHSAA) regulations to wear a mouth guard. An additional \$150.00 per sound natural tooth is available for any player who sustains injuries to their teeth as a result of the failure of the mouth guard, provided that they were wearing the required mouth guard at the time of the injury.

Application for Waiver of Athletic Participation Fee

In June 2010, the Board of Education approved participation fees for middle and high school athletic teams. Middle school students pay a fee of \$75.00 and high school students pay a fee of \$125.00 for each interscholastic sports season in which they participate on one or more teams. Payment of this fee is required by a deadline which is established for each sports season.

In June 2014, the Board of Education approved CMS to participate in the federal Community Eligibility Provision (CEP). The CEP eliminates the need for a district to qualify students for free and reduced price meals and track which students are participating. Students are identified as directly certified (through data matching) for free meals because they live in households that participate in Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TNAF), or Food Distribution Program on Indian Reservations (FDPIR), as well as children who are qualified for free schools meals without submitting a school meal application because of their status as being in foster care, enrolled in Head Start, homeless, runaway, or migrant students.

Students identified as directly certified are eligible to have their participation fee waived. No other students are eligible for this fee waiver. Each applicant's directly certified status is current and must be verified by Child Nutrition Services. Each applicant's waiver form must be accompanied by a current copy of the CMS Child Nutrition meal eligibility letter or a benefits letter from DSS before the athletic participation fee can be waived.

If you wish to apply for a fee waiver, please fill out the information below and return this form to your child's athletic director or athletic coach. Partially completed forms will not be accepted. A separate form must be filled out for each student-athlete for whom a waiver is requested.
