### **Practice Guidelines for Athletic Trainers in Secondary Schools**

- The New York State Committee for Athletic Training has developed and posted on the Education Department's website "Practice Guidelines for Athletic Trainers in Secondary Schools" which emphasize the role and responsibilities of NYS certified athletic trainers in secondary schools, in accordance with NYS statute and regulation.
- Athletic Trainers working in secondary schools must be NYS certified and must work under supervision of a NYS licensed physician.
- Athletic Trainers working in secondary schools must also be familiar with Regulations of the Commissioner: Subchapter G. Health and Physical Education; Part 135, Health, Physical Education and Recreation, 8 CRR-NY 135.4(c)(7)(d) which govern the activities of athletic trainers in the secondary school setting, and Article 162 and subpart 79.7 of the Commissioner's regulations regarding the licensure and certification.
- These Guidelines also outline other responsibilities for athletic trainers in secondary schools, including familiarity with the NYSED guidelines on concussion management and medication management in schools.
- For questions concerning the guidelines, contact the *Office of Student Support Services at [studentsupportservices@nysed.gov](mailto:studentsupportservices@nysed.gov) or 518-486-6090, or the NYS Committee for Athletic Training at [athlbd@nysed.gov](mailto:athlbd@nysed.gov).*

### **GUIDELINES FOR CONCUSSION MANAGEMENT (under review at SED)**

Potential considerations about returning to physical activities (IE: physical education and recess):

- First step in returning to physical activities in school is approval by the healthcare provider. The school may need to contact the healthcare provider to obtain more detailed instructions as to the level of activity the student may participate in. Particularly when returning to PE class participation, it is recommended that a gradual return to physical activities is implemented. At no time should a student suspected of or diagnosed with a concussion be assigned cognitive activities (such as reading or writing) to substitute for PE class physical activities.
- If a district has concerns or questions about the private healthcare provider's orders, the district medical director or their designee should contact that provider to discuss and clarify. The district medical director may develop a return to physical activity protocol for students with concussions whose provider does not provide direction on limitations or needed accommodations.
- There is more concern, appropriately, for re-injury in physical education than other classes. Students should be allowed to participate in individual, non-contact/collision physical activity when their symptoms at rest are minimal as directed by a healthcare provider. Research has shown that mild aggravation of concussion symptoms is acceptable, and that exercise can actually promote recovery
- When developing a plan for gradual return to physical activities, other factors that may impact the student's tolerance of the activity should be considered:
  - Environment: lighting and noise levels
  - Activity level: exertion level, risk of reinjury, and student interest
  - Symptom exacerbation

## **HEALTH EDUCATION**

### **ERIN'S LAW (November 2020)**

In August 2019, New York State became the 37th state to sign Erin's Law into legislation. New York State's law, ([Chapter 187 of the Laws of 2019](#)) - known as Erin's Law - requires public schools to teach child sexual abuse and exploitation prevention classes to students in kindergarten through eighth grade. The New York State Education Department has prepared an Erin's Law website with curriculum resources to support this endeavor and provide assistance to schools and educators. The website and resources have been developed with the help of partners such as the Department of Health, the NYSED Office of Student Support Services, the Office of Children and Family Services (OCFS), and the New York State Center for School Health.
