

# Child & Baby-sitting Safety Classes (CABS) 4th Grade and up (Boys & Girls!)

The Child and Babysitting Safety (CABS) program from the American Safety and Health Institute provides everything you need to know for safe and successful babysitting. The YouTube “vlogger” style presentation of the video brings a youthful and high-energy spirit to the program content, and the colorful magazine format of the student book makes learning fun. From getting started

with your business, to working with parents and children, to key safety, caregiving, and first aid tips, CABS will help set you up for babysitting success. Students must be present for the entire class and complete achievement of the core learning objectives to receive certification valid for two years. Students attend this class independently and should come prepared with a notebook and pen.
