			We approved the tennis schedule at the last meeting. Although, some of the coaches did not see the schedule and was not happy about it. Tennis is very unique when it comes to seeding into the post season as you do need to see the other singles and doubles from your classification. We need to re look at our schedule to see if we need to revote on the schedule.	
Tannic Schodulo	Action	P. Prokko	We all need to make sure we are going back to our coaches and discussing the schedules that we are looking at to approve. Schedule was motioned to be reopened. Tennis Schedule	Action	B.Brakke	Schedule was motioned to be reopened. When looking at the feedback from fail, the seeding was beyond difficult when we didn't have the head to head match ups in classification. We created a schedule that did not take that into consideration at all. In tennis, we need some sort of schedule that has everyone seeding eachother. 3A and 2A are easier to schedule non leagues with eachother. Although with how large 4A is it is harder to schedule everyone to see eachother. We have a few options when it comes to scheduling - 16-8 structure would give the match ups for 4A, but does create a problem for 3As.
