8. Describe your process for ensuring students of color, American Indian students and students from low income families have equitable access to experienced, in-field, and effective teachers.

How did the district examine equitable access data? What data did you look at? How frequently do you review the data?
Who was included in conversations to review equitable access data?
(200 word limit)

Caledonia Area Public Schools is a small school district with just over 700 students K-12. As such, our teaching staff is also small. All of our teachers are licensed teachers providing instruction in the area of their licensure. The district administration which consists of a K-5 principal, Middle School/High School principal and district superintendent, work to ensure access to experienced, effective, and in-field teachers. At present the district has not found any gaps related to the equitable access for low-income students, students of color, or American Indian Students. Because our district is small, all of our students have the same access to all of our teachers.

What strategies has the district initiated to improve student equitable access to experienced, in-field, and effective teachers?
What goal(s) do you have to reduce and eventually eliminate equitable access gaps?
(200 word limit)

With the exception of having some students who do not have adequate internet service in their homes, the district has not found any gaps related to the equitable access for low-income students, students of color, or American Indian Students. Because our district is small, all of our students have the same access to all of our teachers. We have tried to accommodate for lack of internet service by providing access to hot spots and inviting students into the building even during distance learning to utilize the student Wi-Fi.
WBWF also requires districts and charters to examine student access to licensed teachers who reflect the racial and ethnic diversity of students. A growing body of research has demonstrated that all students benefit when they are taught by racially and ethnically diverse staff throughout their career, and students of color and indigenous students benefit even more. Consequently, working to increase teacher racial diversity is beneficial to all schools.

9. Describe your efforts to increase the racial and ethnic diversity of teachers in your district.

Which racial and ethnic student groups are present in your district that are not yet represented in your licensed teacher staff? How many additional teachers of color and American Indian teachers would you need in order to reflect your student population?
(200 word limit)

Caledonia Area Public School system has very little racial and ethnic diversity. Our teaching staff reflects the diversity of our students. We would love to have more racial and ethnic diversity in our teaching population. We would like to hire teachers of color, or American Indian teachers.

What strategies has the district initiated to increase and retain teachers of color and American Indian teachers in the district? What goal(s) are you pursuing?

(200 word limit)

We work with local colleges and actively seek student teachers to work in our buildings. We also advertise on a large scale to try and attract from the largest pool of applicants possible. While we have not done so to this point, we are looking at attending job fairs to reach an even wider range of potential applicants.

10. **For this 2020-21 WBWF summary report submission, please check the boxes to confirm that your district publicly reported this data.**

District/charter publicly reports data on an annual basis related to equitable teacher distribution, including data on access for low-income students, students of color, and American Indian students to effective, experienced, and in-field teachers.
District/charter publicly reports data on an annual basis related to student access to racially and ethnically diverse teachers.

11. **All Students Ready for School**

Does your district/charter enroll students in kindergarten?

Yes

Goal

Provide the established SMART goal for the 2019-20 school year.

90% of Caledonia Hand-In-Hand 4 year old preschool students will reach the Fastbridge spring benchmark composite score of 32.0 or greater by the end of the 2020-2021 School year.

Result

Provide the result for the 2020-21 school year that directly ties back to the established goal.

(Narrative is required. 200 word limit)

At Caledonia Elementary School, we utilize previous year MCA data, FastBridge data, and NWEA/MAP data to disaggregate by student groups.
At Caledonia Elementary School, we use the Independent Reading Level Assessments to individualize instruction for all of our students.
We feel we are implementing the strategies well. It is however difficult to compare one year to the next as our numbers are fairly small, which can skew data from year to year. Our MCA numbers improved greatly when the state numbers decreased greatly.
Data collected on Independent Reading Level Assessments indicates individual student improvement. FastBridge data also supports independent reading growth.

If the pandemic did not affect the quality of the data used to measure progress, please type "N/A" as your answer.

While our goal is to have 95% or higher of our students graduate, we typically graduate 100% of our senior students. We had three students who did not graduate last year, which is not typical for us and we believe the pandemic did play a significant role in those two of those three students not graduating.
