 Welcome to the PM session on multimedia- tell me how you are using multimedia in your classroom to engage your students or create projects. Naomi at 16:51 PM, 26 Mar 2012 via web

Don't really have the ability to do much yet...PowerPoint.

Would like to work more with multimedia tools and find many resources for students
I teach Graphic Design, Animation, Digital Photography and Video, etc. We use digital cameras, video cameras, Adobe CS3 (Flash, Illustrator)

Great multimedia resources - can't wait to use them!

Enjoyed having the time to work on a couple of resources and creating products.

Having time set-aside in our workshops to apply these multimedia tools into my curriculum is the next thing on my mind.

Lots of Info. Would like to review this material in the spring to begin applications for new school year. Days are overloaded at this point.

I wasn't aware of all the various art/paint programs out there. I will certainly be investigating more of them on my own.

Yes. I felt this was excellent. I guess the biggest thing is time to become familiar with all the tools you exposed us to.
