The program or collection of practices must include, at a minimum, effective, balanced instruction in all five areas of reading (phonemic awareness, phonics, fluency, vocabulary development, and reading comprehension), as well as instructional strategies for continuously assessing, evaluating, and communicating the student's reading progress and needs.
- 1. The school district shall identify, before the end of kindergarten, grade 1, and grade 2, students who are not reading at grade level before the end of the current school year and shall identify students in grade 3 or higher who demonstrate a reading difficulty to a classroom teacher. Reading assessments in English and in the predominant languages of district students, where practicable, must identify and evaluate students' areas of academic need related to literacy. The school district also must monitor the progress and provide reading instruction appropriate to the specific needs of English learners. The school district must use locally adopted, developmentally appropriate, and culturally responsive assessment.
- 2. At least annually, the school district must give the parent of each student who is not reading at or above grade level timely information about:

If a student does not read at tor above grade level by the end of grade 3, the school district must continue to provide reading intervention until the student reads at grade level. Intervention methods shall encourage family engagement and, where possible, collaboration with appropriate school and community programs. Intervention methods may include, but are not limited to, requiring attendance in summer school, intensified reading instruction that may require that the student be removed from the regular classroom for part of the school day, extended day programs, or programs that strengthen students' cultural connections.
