First Grade e-Learning Homework

First Grade e-Learning Homework

Dear Parents,

Your child's assignment for today is to choose five different activities; one from each column to complete. When each activity has been completed, please cross out, initial, and date the square. You may mix and match these activities however you'd like. In other words, it does not need to be a straight line BINGO as long as you are choosing one activity per column.

Attendance for the e-day will be contingent upon completion of the five activities. No need to return any work to me; your initials will let me know that the work has been done! Please make sure that the BINGO card has been placed back into your child's folder. Have fun! ☺

Please feel free to email me with any questions or concerns.

Thank-you,

Mrs. Rohlik

p.s. For any additional e-Learning days, you will choose new activities (ones that haven't been previously completed and crossed off.)
