## INDEPENDENT AUDITOR'S REPORT

Board of Education  
Independent School District #256  
**Red Wing, Minnesota**

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Independent School District #256, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Independent School District #256's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Independent School District #256 as of June 30, 2019, and the respective changes in financial position and cash flows, where applicable, and the respective budgetary comparison for the General Fund and each major special revenue fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section and the Uniform Financial Accounting and Reporting Standards Compliance Table are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The Uniform Financial Accounting and Reporting Standards Compliance Table and the schedule of expenditures of federal awards are the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Uniform Financial Accounting and Reporting Standards Compliance Table and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

*Report on Summarized Comparative Information*

The financial statements include partial prior year comparative information. Such information does not include all of the information required to constitute a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statement for the year ended June 30, 2018, from which such partial information was derived.

We have previously audited the District's 2018 financial statements and our report, dated November 15, 2018, expressed unmodified opinions on the respective financial statements of the governmental activities, each major fund and the aggregate remaining fund information. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2018, is consistent, in all material respects, with the audited financial statements from which it has been derived.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of the audit.

MANAGEMENT'S DISCUSSION AND ANALYSIS**

This section of Independent School District #256's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2019. Please read it in conjunction with the District's financial statements, which immediately follow this section.

**FINANCIAL HIGHLIGHTS**

Key financial highlights for the 2018-2019 fiscal year include the following:

Total liabilities and deferred inflows of resources of Independent School District #256, Red Wing, Minnesota exceed its assets and deferred outflows of resources at the close of the most recent fiscal year causing a deficit \$7,882,504 (net position). This was primarily due to changes in the District's share of underfunded pension liability for TRA and General Employees Retirement Fund.

Overall revenues and other sources for the General Fund were \$33,636,547, while overall expenses totaled \$33,639,706.

The General Fund Unassigned Fund Balance is \$2,343,801. This represents a decrease of \$130,601 from last fiscal year.

The Restricted General Fund balances included State required reserves for operating capital, long-term facilities me, and other items. These balances total \$1,025,206 as compared to \$898,775 last fiscal year.

The General Fund total fund balance decreased by \$3,249 from the prior year.

The Food Service Fund total fund balance decreased by \$14,840 from the prior year.

The Community Service Fund total fund balance decreased by \$18,262 from the prior year.

MANAGEMENT'S DISCUSSION AND ANALYSIS**

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The financial section of the annual report consists of four parts – Independent Auditors' Report, required supplementary information, which includes the management's discussion and analysis (this section), the basic financial statements, and other required reports. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are district-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund-financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- The proprietary fund statements offer short-term and long-term financial information about the activities the District operates in a manner similar to businesses.
- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

***District-wide Statements.*** The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources– are one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively. To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements the District's activities are shown in one category: Governmental activities. Most of the District's basic services are included here, such as elementary and secondary regular instruction, special education, transportation, administration, food services, and community education. Property taxes and state aids finance most of these activities.

***Fund Financial Statements.*** The fund financial statements provide more detailed information about the District's funds – focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (i.e. scholarship trust fund).

**INDEPENDENT SCHOOL DISTRICT #256  
RED WING, MINNESOTA  
MANAGEMENT'S DISCUSSION AND ANALYSIS**

**OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)**

The District has three kinds of funds:

- **Governmental funds.** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information following the governmental funds statements that explains the relationship (or difference) between them.
- **Proprietary funds.** Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. The District's sole proprietary fund is an internal service fund which charges the District's activities for the operation of the District medical clinic.
- **Fiduciary funds.** The District is the trustee, or fiduciary, for assets that belong to others, such as the Environmental Learning Center and the other postemployment benefit trust fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

**FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE**

**Net Position.** The district's combined net position from Governmental activities was a deficit \$7,882,504 on June 30, 2019. This was an increase of \$11,301,655 from the prior year primarily due to change in assumptions of net pension liability for TRA and General Employees Retirement Fund.

**Financial Analysis of the District's Funds**

The financial performance of the District as a school is reflected in its governmental funds as well. As the District completed the year, its Governmental Funds reported a combined fund balance of \$5,117,828.

The District experienced an increase during the current fiscal year in the number of students served. It is likely the District will continue to experience fluctuating but generally declining enrollment for at least the next five years.

History of adjusted average daily membership served (ADM) is as follows:

| <u>Fiscal Year</u> | <u>ADM</u> | <u>% Change</u> |
|--------------------|------------|-----------------|
| 2015               | 2,710.29   | -1.2%           |
| 2016               | 2,732.05   | 0.8%            |
| 2017               | 2,703.32   | -1.1%           |
| 2018               | 2,738.89   | 1.3%            |
| 2019               | 2,714.16   | -0.9%           |

**General Fund.** The General Fund includes the primary operations of the District in providing educational services to students, kindergarten through grade twelve including pupil transportation activities and capital outlay projects.

Total General Fund Operating Revenue, including other financing sources, increased in the current year by \$1,078,729 from the previous year primarily due to formula increases in both general education revenue and special education revenue. Basic general education revenue is determined by a state per student funding formula and consists of an equalized mix of property tax and state aid revenue. Other state-authorized revenue includes levy referendum and the property tax shift also involves an equalized mix of property tax and state aid revenue. Therefore, the mix of property tax and state aid can change significantly from year to year without any net revenue change.

| <b>Total General Fund Expenditures</b> | <b>\$ 33,639,706</b> | <b>\$ 32,010,643</b> | <b>\$ 1,629,063</b>     |

The total General Fund balance on June 30, 2019, is \$3,614,465 compared to \$3,617,714 on June 30, 2018 (decrease of \$3,249). Of the 2019 amount, \$1,270,664 is nonspendable, assigned or restricted for specific purposes by state requirements – leaving an amount of \$2,343,801 in the Unassigned General Fund Balance.

**Food Service Fund.** The Food Service Fund accounts for the activities related to providing child nutrition services to support K-12 academic programs. The fund operates with the goal that revenues exceed expenditures on day-to-day school breakfast and lunch operations so that the excess can be used to systematically replace and upgrade kitchen equipment. By operating in this manner, the child nutrition services program is self-supporting and does not rely upon resources from K-12 instruction programs other than for use of school facilities.

The Food Service Fund Balance decreased by \$14,840. On June 30, 2019 the fund balance was \$73,096 compared to last year's balance of \$87,936.

MANAGEMENT'S DISCUSSION AND ANALYSIS**

**FUND BASIS FINANCIAL ANALYSIS (Continued)**

***Food Service Fund (Continued)***

The Food Service revenue for 2018-2019 totaled \$1,660,751 compared to \$1,557,919 the previous year – an increase of \$102,832. Federal revenue increased due to more participation in the breakfast program; increase of 12,134 breakfasts served compared to the previous year. Federal Commodities allocations from USDA increased \$29,878 The District also continues to expand its Summer Food Service program, causing an increase in revenue of \$29,429 over the prior year.

The Food Service expenditures for 2018-2019 totaled \$1,675,591 compared to \$1,626,613 the previous year – an increase in expenditures of \$48,978. This increase is due to increased salary costs and retro payments from the labor contract that expired 6/30/2017.

***Community Service Fund.*** The Community Service Fund accounts for the activities related to providing education and recreation programs for Pre-Kindergarten through Post-Grade 12 students. The fund operates on the goal of breaking even on a yearly basis so that it does not rely upon resources from K-12 instruction programs other than for use of school facilities.

The Community Service Fund Balance decreased by \$18,262 during the current fiscal year.

Community Service Fund revenues for 2018-2019 totaled \$2,319,074 compared to \$2,465,894 in the previous year. This was a decrease in revenue of \$146,820 from the previous year. This increase was primarily due to decreases in state adult basic education aid and the ice arena levy.

Community Service Fund expenditures for 2018-2019 totaled \$2,337,336 compared to \$2,462,220 in the previous year. This was a decrease in expenditures of \$124,884 from the previous year. This is primarily due to a decrease in ice arena expenses due to replacement of the refrigerant in 2017-18.

***Debt Service Fund.*** The Debt Service fund exists to service the principal and interest on long-term debt issued by the District to construct school facilities or acquire school equipment. Annual levies will provide revenue at a rate of 105% or pending debt service payments for a fiscal year. This rate is specified in statute to ensure that principal and interest payment can be made as scheduled even if there are late property tax payments or delinquencies that may arise.

The Debt Service Restricted Fund Balance increased by \$117,582 from the prior year.

The restricted fund balance is \$622,206 as of June 30, 2019. This fund balance and the estimated 2018-2019 levy payable in 2020 and state aid is sufficient to make pending principal and interest payments on the School Building and Facility Bonds and other loans.

***Internal Service Fund***

The employee medical clinic started in June 2013. Cost of operations (no fees charged to eligible employees and dependents) were \$376,320 with the majority of costs allocated back departmentally. In January of 2016 the District entered into an agreement with the City of Red Wing to share the costs of the clinic by participation. For 2018-2019, there were 2,198 total visits, 1,631 were employees/dependents and 567 were City of Red Wing employees/dependents.

***Fiduciary Funds.*** The Environmental Learning Center and the other postemployment benefit trust fund are Independent School District #256's fiduciary funds. The net position of the Fiduciary Funds is \$10,101,585.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The District provided a Revised 2018-2019 Budget in February of 2019. The Revised Budget showed a decrease of \$390,489 in the District's Unassigned General Fund Balance. This was primarily due to conservatively budgeting for student enrollment.

The Actual FY19 revenue was \$836,962 higher than the Revised Budget Revenue primarily due to student enrollment being higher than projected and an increase in special education aid.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

***Capital Assets.*** As of June 30, 2019, the District had invested \$88,914,319, before depreciation, in a broad range of capital assets including school buildings, athletic facilities, technology equipment, and other types of equipment.

Capital assets are recorded in the District-wide financial statements, but are not reported in the Fund financial statements.

**FACTORS BEARING ON THE DISTRICT'S FUTURE**

The District is dependent on the State of Minnesota for a significant portion of its revenue. The State Legislature increased the basic funding formula for 18-19 as well as the 19-20 school year. The District will strive to maintain quality educational programming while addressing the challenges of declining enrollment. The District will carry on its long-standing commitment to academic excellence and educational opportunity for students within a framework of financial fiduciary responsibility.

RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES, AND CHANGES IN FUND BALANCES OF  
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
For the Fiscal Year Ended June 30, 2019**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds (pages 19 and 20) \$ (4,213,597)

Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

|                      |              |           |
|----------------------|--------------|-----------|
| Capital outlays      | \$ 3,627,902 |           |
| Depreciation expense | (979,961)    |           |
|                      |              | 2,647,941 |

Certain revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:  
Delinquent property taxes

(10,826)

The prefunded other postemployment benefit obligations are reported as an expenditure in the governmental funds but are not reflected in the statement of activities

183,321

The governmental funds report long-term debt proceeds as financing sources, while repayment of long-term debt principal is reported as an expenditure. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Also, governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of general obligations bonds and related items is as follows.

|  |              |           |
|--|--------------|-----------|
| Principal retirement on long-term debt | \$ 2,975,000 |           |
| Change in accrued interest             | 39,458       |           |
| Amortization of bond premium           | 40,556       |           |
|  |              | 3,055,014 |

In the statement of activities, certain operating expenses - net pension liability and compensated absences - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).

|  |           |           |
|--|-----------|-----------|
| Change in net pension liability        | 9,642,555 |           |

**1. Summary of Significant Accounting Policies**

---

Independent School District #256 was formed and operates pursuant to applicable Minnesota laws and statutes.

The governing body consists of a seven-member board elected by the voters of the District to serve four-year terms.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The GASB pronouncements are recognized as accounting principles generally accepted in the United States of America for state and local governments. The following is a summary of the more significant accounting policies:

*Financial Reporting Entity*

Independent School District #256 (the District) is an instrumentality of the State of Minnesota established to function as an educational institution. The elected School Board (Board) is responsible for legislative and fiscal control of the District. A Superintendent is appointed by the Board and is responsible for administrative control of the District.

Accounting principles generally accepted in the United States of America (GAAP) require that the District's financial statements include all funds, account groups, departments, agencies, boards, commissions, and other organizations which are not legally separated from the District. In addition, the District's financial statements are to include all component units - entities for which the District is financially accountable.

Financial accountability includes such aspects as appointing a voting majority of the organization's governing body, significantly influencing the programs, projects, activities or level of services performed or provided by the organization or receiving specific financial benefits from, or imposing specific financial burden on, the organization. Based on the aforementioned criteria, the District has no component units.

Student activities are determined primarily by student participants under the guidance of an adult and are generally conducted outside of school hours. The School Board does have a fiduciary responsibility in establishing broad policies and ensuring that appropriate financial records are maintained for student activities. However, in accordance with Minnesota State Statutes, the District's School Board has not elected to control or exercise oversight responsibility with respect to the underlying student activities. Accordingly, the student activity accounts are not included in these financial statements.

Basic Financial Statement Presentation

The District-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary fund. Fiduciary funds are reported only in the Statements of Fiduciary Net Position and Changes in Fiduciary Fund Net Position at the fund financial statement level.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. Depreciation expense that can be specifically identified by function is included in the direct expenses of each function. Interest on long-term debt is considered an indirect expense, and is reported separately on the Statement of Activities. Generally, the effect of material inter-fund activity has been removed from the District-wide financial statements.

Separate fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Proprietary funds are presented in the proprietary fund financial statements by type. Fiduciary funds are presented in the fiduciary fund financial statements by type. Since by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the District-wide statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The District-wide financial statements were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts recognized in advance in accordance with a statutory "tax shift" described later in these notes.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met. State aids are recorded as revenue in the fiscal year for which the aids are designated by statute.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Governmental fund types are accounted for using the modified accrual basis of accounting. Under this method, revenues are recognized when susceptible to accrual, i.e. both measurable and available to finance expenditures of the fiscal period. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenues susceptible to accrual are property taxes, state aids, fees, and interest. For this purpose, the District considers all revenues to be available if collected within 60 days after the end of the current period.

Expenditures are generally recognized using the modified accrual basis of accounting when a related fund liability is incurred. Exceptions to this rule include (1) accumulated unpaid vacation, sick pay, and other employee amounts which are not accrued, and (2) principal and interest on general long-term debt which is recognized when due.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's proprietary fund are services for which the District charges a fee. Operating expenses for the proprietary fund are charges to District activities for the estimated cost of health insurance and early retirement obligations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the District's policy to use the restricted resources first, then unrestricted resources as they are needed.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

**1. Summary of Significant Accounting Policies (Continued)**

---

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Non-exchange transaction, in which the District receives value without directly giving equal value in return, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year in which the resources are required to be used or the year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it is recognized.

Unearned revenue is recorded when assets are recognized before revenue recognition criteria have been satisfied. Grants received before eligibility requirements other than time requirements are met are recorded as unearned revenue. Grants received before time requirements are met are recorded as a deferred inflow of resources.

Description of Funds

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, fund equity, revenues and expenditures. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The District electively added as major funds, those which had specific community focus.

The major funds of the District are presented as follows:

The *general fund* is the District's primary operating fund. It accounts for all financial resources and transactions except those required to be accounted for in other funds.

The *food service fund* accounts for all activities associated with the preparation and serving of regular and incidental meals, lunches or snacks in connection with school activities.

The *community service fund* accounts for the resources designated for programs other than those for elementary and secondary students.

The *capital projects – building construction fund* accounts for the resources related to general obligation alternative and capital facility bonds issued for the addition/renovations of District building and property.

The *debt service fund* accounts for the accumulation of resources for, and the payment of long-term debt principal, interest and related costs.

The District reports the following proprietary fund:

The *internal service fund* accounts for the financing of services, provided by one fund to other funds of the District on a cost reimbursement basis. The School District's internal service fund and its purposes is as follows:

The *medical clinic fund* accounts for the activities related to the employee medical clinic setup by the District to provide health care services to its employees and to help the District control health insurance costs.

Description of Funds (Continued)

The District reports the following fiduciary funds:

The *other postemployment benefit trust fund* accounts for resources held by the District in trust for the payment of other postemployment benefits.

The *agency fund* accounts for cash and other assets held by the District as the agent for others. This fund accounts for funds held for Environmental Learning Center (ELC) and Student Activity Accounts.

Budgets and Budgetary Accounting

Budgets presented in this report for comparison to actual amounts are presented in accordance with accounting principles generally accepted in the United States of America. Each June, the School Board adopts an annual budget for the following fiscal year for the General, Food Service, Community Service, Building Fund, and Debt Service Funds. Reported budget amounts represent the amended budget as adopted by the School Board. Legal budgetary control is at the fund level.

Procedurally, in establishing the budgetary data reflected in these financial statements, the Superintendent submits to the School Board prior to July 1, a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means to finance them. The budget is legally enacted by School Board action. Revisions to budgeted amounts must be approved by the School Board.

Total fund expenditures in excess of the budget require approval of the School Board. Spending control for most funds is established by the amount of expenditures budgeted for the fund, but management control is exercised at line item levels.

Cash and Investments

Except where otherwise required, the District maintains all deposits in bank accounts in the name of the District. These deposits are invested on a short-term basis with interest income allocated to each fund based upon their relative account balance. The balances shown in each fund represents an equity interest in the commingled pool of cash and temporary cash investments, which is under the management of the District. Investments consist primarily of nonparticipating certificates of deposit recorded at cost, which approximates market.

The District has designated cash and cash equivalents as demand deposits and all investments with an original maturity of three months or less.

Accounts Receivable

Represents amounts receivable from individuals, firms, and corporations for goods and services furnished by the District. No substantial losses are anticipated from present receivable balances, therefore, no allowance for uncollectible accounts is deemed necessary.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Unearned Revenue

Unearned revenues are in which resources are derived by the District before it has legal claim to them. The District has reported the following items as unearned revenue: arena advertising, retiree benefits collected, grants collected in advance of expenditures incurred, school lunch balances for students and excess TIF revenues received from county and local sources.

Inventories

Inventories are recorded using the consumption method of accounting and consist of food and commodities on hand at the end of the fiscal year. The food is recorded at the lower of cost or market, based on the latest invoice cost, which approximates the FIFO inventory method. Surplus commodities are stated at standardized commodities cost as determined by the Department of Agriculture.

Prefunded Other Postemployment Benefit Obligations

This represents an amount that was contributed in advance of the required contributions for other postemployment benefits.

Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepayments. Prepaid items are reported using the consumption method and recorded as an expense or expenditure at the time of consumption.

Property Taxes

Property tax levies are established by the School Board in December each year and are certified to the County for collection the following calendar year. In Minnesota, counties act as collection agents for all property taxes. The County spreads all levies over taxable property. Such taxes become a lien on January 1. Taxes are due on May 15 and October 15. The county generally remits taxes to the District at periodic intervals as they are collected. A portion of property taxes levied is paid through various state tax credits which are included in revenue from state sources in the financial statements.

Generally, tax revenue is recognized in the fiscal year ending June 30, following the calendar year in which the tax levy is collectible, while the current calendar year tax levy is recorded as deferred revenue (property taxes levied for subsequent year). The majority of District revenue in the General and Special Revenue Funds is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between taxes and state aids by the Legislature based on education funding priorities. To help balance the state budget, the Minnesota Legislature utilizes a tool referred to as the "tax shift", which periodically changes the District's recognition of property tax revenue. The tax shift advance recognizes cash collected for the subsequent year's levy as current year revenue, allowing the state to reduce the amount of aid paid to the District. Currently, the mandated tax shift recognizes \$533,470 of the property tax levy collectible in 2019 as revenue to the District in fiscal year 2018-2019. The remaining portion of the taxes collectible in 2019 is recorded as deferred inflows of resources.

**INDEPENDENT SCHOOL DISTRICT #256  
RED WING, MINNESOTA**

**NOTES TO FINANCIAL STATEMENTS**

---

**1. Summary of Significant Accounting Policies (Continued)**

---

Property Taxes (Continued)

Taxes that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is deferred inflows of resources because it is not known to be available to finance the operations of the District in the current year. No allowance for uncollectible taxes has been provided as such amounts are not expected to be material. Current levies of local taxes, less the amount recognized as revenue in the current period, including portions assumed by the State which will be recognized as revenue in the next fiscal year beginning July 1, 2019, are included in the Property Taxes Levied for Subsequent Year account to indicate that, while they are current assets, they will not be recognized as revenue until the following year.

Capital Assets

Capital assets are recorded at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated acquisition value at the date of donation. The District maintains a capitalization threshold level of \$1,500. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the District-wide financial statement, but are not reported in the Fund financial statements. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Depreciation is provided using the straight-line method applied over the following estimated useful lives of the assets.

|                            | Useful Life<br>in Years |
|----------------------------|-------------------------|
| Buildings and improvements | 20 - 30                 |
| Land improvements          | 20 - 30                 |
| Equipment                  | 5 - 20                  |

Capital assets not being depreciated include land and construction work in progress.

The District does not possess any material amounts of infrastructure capital assets. Items such as sidewalks and other land improvements are considered to be part of the cost of buildings or other improvable property.

Compensated Absences

The District has employee and union contracts with several different employee groups. Employee benefits under the contracts are different, but generally include provisions for sick leave and vacation leave. The District accounts for the employee benefits as follows:

Vacation leave vests and may be carried forward for up to one year, depending on the contract. A liability is recorded for earned but unpaid vacation leave.

Substantially all District employees are entitled to sick leave at various rates for each month of full-time service. For certain employees, unused sick leave enters into the calculation of severance pay upon termination and is accounted for as follows:

Compensated Absences (continued)

*Early Retirement Incentive Payment – Secretarial/Clerical Employees and Education Support Personnel* – An early retirement incentive payment is available to employees who work at least 5 hours per day and have completed at least 10 years of continuous service with the District and are at least 55 years of age. An eligible employee upon retirement will receive a payment based on a set formula for every unused sick leave hour to a maximum of 1,050 unused sick leave hours. The formula starts at a payment of \$10.00 per unused sick leave hour to \$12.50 per unused sick leave hour to a maximum benefit amount of \$12,075.

*Early Retirement Incentive Payment – Food Service Employees* – An early retirement incentive payment is available to food service employees who have completed at least 10 years of continuous service with the District and are at least 55 years of age. An eligible employee upon retirement will receive a payment based on a set formula for every unused sick leave hour to a maximum of 1,050 unused sick leave hours. The formula starts at a payment of \$10.00 per unused sick leave hour to \$12.50 per unused sick leave hour to a maximum benefit amount of \$12,075.

*Early Retirement Incentive Payment – Nonclassified Personnel* – An early retirement incentive payment is available to employees, hired prior to July 1, 2001, who work at least 5 hours per day and have completed at least 10 years of continuous service with the District and are at least 55 years of age. An eligible employee upon retirement will receive a payment based on a set formula for every unused sick leave day to a maximum of 200 unused sick leave days. The formula starts at a payment of \$65 per unused sick leave day to \$80 per unused sick leave day to a maximum benefit of \$14,500, less any District contributions to a matching deferred compensation program under M.S. 356.24.

*Early Retirement Incentive Payment – District Coordinators and Directors* – An early retirement incentive payment is available to full-time coordinators/directors, hired prior to July 1, 2001, who have completed at least 8 years of continuous service with the District and are at least 50 years of age. An eligible coordinator/director upon retirement shall receive an amount equal to the number of unused accumulated sick leave days multiplied by the employee's daily rate of pay, not to exceed 130 days, less any District contributions to a matching deferred compensation program under M.S. 356.24.

*Early Retirement Incentive Payment – Principals* – A severance payment is available to principals who have completed at least 7 years of continuous service with the District. An eligible principal upon retirement shall receive an amount equal to the number of unused accumulated sick leave days multiplied by a percentage of the employee's daily rate of pay, from 65% to 75%, not to exceed 100 days, less any District contribution to a matching deferred compensation program under M.S. 356.24.

An early retirement incentive payment is also available to principals who have completed at least 7 years of continuous service with the District. An eligible principal upon retirement shall receive an amount equal to the number of unused accumulated sick leave days multiplied by a percentage of the employee's daily rate of pay, from 65% to 75%, not to exceed 100 days, less any District contributions to a matching deferred compensation program under M.S. 356.24

*Early Retirement Incentive Payment – Teachers* – An early retirement incentive payment is available to teachers who have completed at least 10 years of teaching service with the District and who are at least 55 years of age. An eligible employee upon retirement will receive a payment based on a set formula for every unused sick leave day to a maximum of 120 unused sick leave days. The formula starts at a payment of \$85 per unused sick leave day to \$160 per unused sick leave day to a maximum benefit amount of \$14,550.

*Early Retirement Incentive Payment – Program Supervisors* – An early retirement incentive payment is available to program supervisors, hired prior to July 1, 2001, who have completed at least 10 years of continuous service with the District and are at least 55 years of age. An eligible employee upon retirement will receive a payment based on a formula for every unused sick leave day to a maximum of 120 unused sick leave days. The formula starts at a payment of \$85 per unused sick leave day to \$160 per unused sick leave day to a maximum benefit of \$14,550, less any District contribution to a matching deferred compensation program under M.S. 356.24.

*Early Retirement Incentive Payment – Custodial Employees* – An early retirement incentive payment is available to custodial employees who have completed at least 10 years of continuous service with the District and who are at least 55 years of age. An eligible custodial employee upon retirement will receive a payment based on a set formula for every unused sick leave day to maximum of 200 unused sick leave days. The formula starts at a payment of \$65 per unused sick leave day to \$80 per unused sick leave day to a maximum benefit of \$14,500.

*Early Retirement Incentive Payment – Superintendent* – A severance payment is available to the superintendent upon completion of at least 8 years of continuous service with the District. The superintendent upon retirement shall receive an amount equal to the number of unused accumulated sick leave days multiplied by the superintendent's daily rate of pay, not to exceed 40 days.

An early retirement incentive payment is available to the superintendent upon completed of at least 8 years of continuous service with the District. The superintendent upon retirement shall receive an amount equal to the number of unused accumulated sick leave days multiplied by the superintendent's daily rate of pay, not to exceed 130 days.

At June 30, 2019, compensated absences payable totaling \$1,156,725 is recorded in the financial statements.

Other Postemployment Benefits Payable

Under the provisions of the various employee and union contracts the District provides Health Care benefits if certain age and minimum years of service requirements are met. The amount to be incurred is limited as specified by contract. This amount was actuarially determined, in accordance with GASB 74 and 75. The District has established an Other Postemployment Benefit Trust Fund to receive contributions from the operating funds for the purpose of paying other postemployment benefits.

Deferred Outflows of Resources

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has one type of item. The type of deferred outflow of resources is *pension related* and is reported in the statement of net position. This amount is deferred and will be recognized as an outflow of resources in the period that the amount becomes available.

Deferred Inflows of Resources

In addition to liabilities, the financial statement will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items. The first occurs become property tax receivables are recorded in the current year, but the revenue will be recorded in the subsequent year. The second type of deferred inflow of resources occurs in the governmental fund revenues are not recognized until available (collected not later than 60 days after the end of the District's year-end) under the modified accrual basis of accounting. The third type, *pension related*, is reported in the statement of net position. These amounts are deferred and will be recognized as an inflow of resources in the period that the amounts become available.

Long-term Obligations

In the District-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balance

In the fund financial statements, governmental fund types report restrictions of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Assignments of fund balance represent tentative management plans that are subject to change.

Statement of Cash Flows

For the purposes of the statement of cash flows, the District considers demand deposit accounts to be cash and cash equivalents.

Comparative Data

Comparative data for the prior year has been presented in certain of the accompanying financial statements in order to provide an understanding of changes in the District's financial position and operations. However, complete comparative data has not been presented since their inclusion would not provide meaningful comparisons. Certain amounts in the prior year totals column have been reclassified to conform with the current year presentation.

Concentration of Credit Risk

Financial instruments which expose the District to a concentration of credit risk consist primarily of cash and investments. Credit risk associated with cash and investments are discussed in Note 3.

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources in the District-wide, Proprietary Fund and Fiduciary Fund financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position are reported as restricted in the District-wide financial statements when there are limitations on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) and additions to/deductions from PERA's and TRA's fiduciary net position have been determined on the same basis as they are reported by PERA and TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TRA has a special funding situation created by direct aid contributions made by the State of Minnesota, City of Minneapolis and Minneapolis School District. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006. A second direct aid source is from the State of Minnesota for the merger of the Duluth Teacher's Retirement Fund Association (DTRFA) in 2015.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District's deposit policy for custodial credit risk follows Minnesota Statutes for deposits. The District's deposits are entirely covered by federal depository insurance or by collateral held by the District's custodial banks in the District's name.

Minnesota Statutes require that all District deposits be insured, secured by surety bonds or be collateralized. Except for notes secured by first mortgages of future maturity, the market value of collateral pledged by the custodial bank must equal 110% of the deposits not covered by insurance or surety bonds.

Authorized collateral includes certain state or local government obligations and legal investments. Minnesota Statutes also require that securities pledged as collateral be held in safekeeping by the Treasurer, or in a financial institution other than the institution furnishing the collateral.

Investments Authorized by Minnesota Statutes

The District is authorized by Minnesota Statutes to invest idle funds as follows:

- a) Direct obligations or obligations guaranteed by the United States or its agencies.
- b) Shares of investment companies registered under the Federal Investment Company Act of 1940 and receives the highest credit rating, is rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of thirteen months or less.
- c) General obligations rated "A" or better; revenue obligations rated "AA" or better.
- d) General obligations of the Minnesota Housing Finance Agency rated "A" or better.
- e) Bankers acceptances of United States banks eligible for purchase by the Federal Reserve System.
- f) Commercial paper issued by United States corporations or their Canadian subsidiaries, of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less.
- g) Repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
- h) Guaranteed Investments Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories.

Fair Value Measurement

The District uses fair value measurements to record fair value adjustments to certain assets and liabilities to determine Fair value disclosures. The District follows an accounting standard that defines fair value, established a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements.

In accordance with this standard, the District has categorized its investments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instrument fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. Financial assets and liabilities recorded on the combined statements of financial position are categorized based on the inputs to the valuation technique as follows:

Fair Value Measurement (continued)

*Level 1* – Financial assets and liabilities are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities

*Level 2* – Financial assets and liabilities are valued based on quoted prices for similar assets, or inputs that are observable, either directly or indirectly for substantially the full term through corroboration with observable market data.

*Level 3* – Financial assets and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity’s own assumptions about eth assumptions market participants would use in pricing the asset.

The District has no assets measured at fair value on a recurring basis.

At June 30, 2019, the District’s investment balances were as follows:

|  | <u>Amortized Cost</u> |
|--|-----------------------|
| Minnesota School District Liquid Asset Fund Plus (MSDLAF+) | \$ 3,129,653          |

The MSDLAF+ is an external investment pool and its investments are valued at amortized cost, which approximates fair in accordance with Rule 2a-7 of the Investment Company Act of 1940. The amortized cost method of valuation values a security at its cost on the date of purchase and thereafter assumes a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuation interest rates on the market value of instruments.

Credit Risk

The MSDLAF+ pool is rated AAAM by Standard & Poor’s.

|                                      | <u>Amortized Cost</u> |

|                                      | <u>\$ 143,529</u>     |

The MN Trust Investment Shares Portfolio is an external investment pool not registered with the Securities and Exchange Commission (SEC) that follows the same regulatory rules of the SEC under Rule 2a-7 of the Investment Company Act of 1940. The fair value of the position in the pool is the same as the value of the pool shares.

Credit Risk – The MN Trust Term Series is not rated. The MN Trust Investment Shares Portfolio is rated AAA by Moody’s Investor Service.

The above investments are held within the other postemployment benefit trust fund. The funds are invested in accordance with the investment policy adopted by the District for the OPEB Trust. These investments may be invested as authorized by Minnesota Statutes Chapter 118A or Section 356A.06, Subdivision 7.

Risk and Uncertainties

In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could be material.

Custodial Credit Risk

For an investment, custodial risk is the risk that, in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have a policy for custodial credit risk and follows Minnesota Statutes for investments held in other postemployment benefit trust.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to change in market interest rates. The District has a formal investment policy that addresses permissible investments, portfolio diversification and instrument maturities. Investment maturities are scheduled to coincide with projected needs for other postemployment benefits. Within these parameters, it is the District's policy to stagger portfolio maturities to avoid undue concentration of assets, provide for stability of income, and limit exposure to fair value losses arising from rising interest rates. Information about the sensitivity of the fair values of the investments held in other postemployment benefit trust to market interest rate risk fluctuations is provided by the following table that shows the distribution of the investments held in other postemployment benefit trust by maturity.

**INDEPENDENT SCHOOL DISTRICT #256  
RED WING, MINNESOTA**

**NOTES TO FINANCIAL STATEMENTS**

**6. Long-Term Debt**

The District has issued general obligation school building bonds to finance the construction or capital facilities, refinance previous bond issues and to provide for the payment of other postemployment benefits. Assets of the Debt Service Fund, together with scheduled future tax levies, are dedicated for the retirement of these bonds. These levies are subject to reduction if fund balance amounts exceed limitations imposed by Minnesota law. The District's General Fund, Food Service Fund and Community Service Fund finance compensated absences on the pay-as-you go basis.

**8. Fund Equity**

---

In accordance with Government Accounting Standards, the District classifies governmental fund balances as follows:

- Non-spendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual restraints.
- Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained to due constitutional provisions or enabling legislation.
- Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the school board through formal action (resolution) and remain binding unless removed by the school board by subsequent formal action.
- Assigned – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. The school board, by majority vote, may assigned fund balances to be used for specific purposes when appropriate. The board also delegates the power to assign fund balances to the following: Director of Finance, HR and Operations.
- Unassigned – includes positive fund balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds.

The District uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring for dollar spending. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The District has a formal minimum fund balance policy, which identifies an unrestricted General Fund balance, including committed, assigned and unassigned, of at least 5% of the prior fiscal year's General Fund expenditures and no greater than 20% of the prior fiscal year's General Fund expenditures.

Restrictions of fund balance indicates that a portion of the fund balance is legally segregated for a specific future use. The following is a summary of the reserved fund balances for the governmental funds:

Restricted for Operating Capital – The District levies taxes and receives state aid to be used for the purchase of equipment, books and vehicles and to purchase, rent, improve, and repair school facilities as allowed by State Statute. The cumulative excess of such revenues over equipment and facilities expenditures is reported as a restriction of fund balance in the General fund.

Restricted for Staff Development – Represents unspent staff development revenues set aside from General Education Revenue that were Restricted/Reserved for Staff Development related to Finance Code 316.

Restricted for Long-Term Facilities Maintenance – Represents available resources to be used for LTFM projects in accordance with the 10 year plan.

Restricted for Community Education - Represents available resources within the Community Service Fund for enrichment programs for any age level that are not part of the K-12 education program which are not taken for credit or required for graduation.

Restricted for Early Childhood and Family Education - Represents available resources within the Community Service Fund whose focus is to improve parenting skills of new and expectant parents, and/or to provide learning experiences for parents and children.

Restricted for School Readiness - Represents the resources available to provide for services for school readiness programs.

Restricted for Adult Basic Education – Represents accumulated resources available to provide adult basic education programming.

**9. Defined Benefit Pension Plans - Statewide**

---

The District participates in the following cost-sharing multiple-employer defined benefit pension plans administered by Public Employees Retirement Association of Minnesota (PERA) and the Teacher's Retirement Association (TRA). PERA's and TRA's defined benefit pension plans are established and administered in accordance with *Minnesota Statutes*. PERA and TRA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

Plan Description

1. General Employees Retirement Fund

PERA's defined benefit pension plans are established and administered in accordance with *Minnesota Statutes*, Chapters 353 and 356.

All full-time and certain part-time employees of the District other than teachers are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

2. Teachers Retirement Association (TRA)

The TRA is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with *Minnesota Statutes*, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary school, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul schools or Minnesota State colleges and universities). Educators first hired by Minnesota State may elect TRA coverage or coverage through Minnesota State's Individual Retirement Account Plan (IRAP) within one year of eligible employment.

Benefits Provided

PERA and TRA provide retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature.

1. General Employees Plan Benefits

Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

RED WING, MINNESOTA**

**NOTES TO FINANCIAL STATEMENTS**

**9. Defined Benefit Pension Plans – Statewide (Continued)**

General Employees Plan benefits are based on a member’s highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA’s Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate of Coordinated members is 1.2 percent for each of the first 10 years of service and 1.7 percent for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent for all years of service. For members hired prior to July 1, 1989 a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. General Employees Plan benefit recipients receive a future annual 1.0 percent increase. If the General Employees Plan is at least 90 percent funded for two consecutive years, the benefit increase will revert to 2.5 percent. If, after reverting to a 2.5 percent benefit increase, the funding ratio declines to less than 80 percent for one year or less than 85 percent for two consecutive years, the benefit increase will decrease to 1.0 percent. A benefit recipient who has been receiving a benefit for at least 12 full months as of June 30, will receive a full increase. Members receiving benefits for at least one month but less than 12 full months as of June 30, will receive a pro rata increase.

**2. TRA Benefits**

TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

| Tier I:     | Step Rate Formula   | Percentage           |
|-------------|---|----------------------|
| Basic       | First ten years of service  | 2.2 percent per year |
|             | All years after   | 2.7 percent per year |
| Coordinated | First ten years if service years are up to July 1, 2006               | 1.2 percent per year |
|             | First ten years if service years are July 1, 2006 or after            | 1.4 percent per year |
|             | All other years of service if service years are up to July 1, 2006    | 1.7 percent per year |
|             | All other years of service if service years are July 1, 2006 or after | 1.9 percent per year |

With these provisions:

- a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- b) 3 percent per year early retirement reduction factors for all years under normal retirement age.
- c) Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

*Tier II Benefits*

For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for coordinated members and 2.7 percent per year for basic members is applied. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for coordinated members and 2.7 percent for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statute. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II benefit calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree - no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is also eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the plan provisions in effect at the time they last terminated their public service.

Contributions

1. General Employees Fund Contributions

*Minnesota Statutes* Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2019 and the District was required to contribute 7.50 percent for Coordinated Plan members. The District's contributions to the General Employees Fund for the year ended June 30, 2019 were \$371,592. The District's contributions were equal to the required contributions as set by the state statute.

2. TRA Contributions

Per *Minnesota Statutes*, Chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal year ended were:

|             | Ended June 30, 2019 |          | Ended June 30, 2018 |          |
|-------------|---------------------|----------|---------------------|----------|
|             | Employee            | Employer | Employee            | Employer |
| Basic       | 11.00%              | 11.71%   | 11.00%              | 11.50%   |
| Coordinated | 7.50%               | 7.71%    | 7.50%               | 7.50%    |

The District's contributions to the TRA Fund for the year ended June 30, 2019 were \$965,064. The District's contributions were equal to the required contributions as set by the state statute.

Pension Costs

1. General Employees Fund Pension Costs

At June 30, 2019, the District reported a liability of \$4,088,574 for its proportionate share of the General Employees Fund’s net pension liability. The District’s net pension liability reflected a reduction due to the State of Minnesota’s contribution of \$16 million. The State of Minnesota is considered a non-employer contributing entity and the state’s contribution meets the definition of a special funding situation. The State of Minnesota’s proportionate share of the net pension liability associated with the District totaled \$134,082. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the net pension liability was based on the District’s contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2017, through June 30, 2018, relative to the total employer contributions received from all of PERA’s participating employers. At June 30, 2018, the District’s proportion was 0.0737 percent which was a decrease of 0.0023 percent from its proportion measured as of June 30, 2017.

|   |              |

**9. Defined Benefit Pension Plans – Statewide (Continued)**

For the year ended June 30, 2019, the District recognized pension expense of (\$502,035) for its proportionate share of General Employees Plan’s pension expense. In addition, the District recognized an additional \$31,268 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota’s contribution of \$16 million to the General Employees Fund.

At June 30, 2019, the District reported its proportionate share of General Employees Plan’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Deferred Outflows<br>of Resources | Deferred Inflows<br>of Resources |
|---|-----------------------------------|----------------------------------|
| Difference between expected and actual economic experience    | \$ 111,444                        | \$ 122,644                       |
| Difference between projected and actual investment earnings   |                                   | 410,799                          |
| Changes in actuarial assumptions                              | 401,691                           | 469,208                          |
| Changes in proportion   | 8,119                             | 224,139                          |
| Contributions paid to PERA subsequent to the measurement date | 414,864                           |                                  |
| Total   | \$ 936,118                        | \$ 1,226,790                     |

\$414,864 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows and inflows of resources related to GERP pensions will be recognized in pension expense as follows:

| Year ending June 30: | Pension Expense<br>Amount |
|----------------------|---------------------------|
| 2020                 | \$ 11,644                 |

| 2023                 | (85,334)                  |

**2. TRA Pension Costs**

At June 30, 2019, the District reported a liability of \$14,628,341 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the net pension liability was based on the District’s contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis and Minneapolis School District. The District’s proportionate share was 0.2329% at the end of the measurement period and 0.2326% for the beginning of the period.

**9. Defined Benefit Pension Plans – Statewide (Continued)**

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the district were as follows:

|   |    |            |
|---|----|------------|
| District's proportionate share of net pension liability                               | \$ | 14,628,341 |
| State's proportionate share of the net pension liability associated with the district | \$ | 1,374,472  |

For the year ended June 30, 2019, the District recognized pension expense of (\$9,140,520). It also recognized \$82,883 as an increase to pension expense for the support provided by direct aid.

At June 30, 2019 the District had deferred resources related to pensions from the following sources:

|  | Deferred Outflows<br>of Resources | Deferred Inflows<br>of Resources |
|--|-----------------------------------|----------------------------------|
| Difference between expected and actual economic experience   | \$ 184,812                        | \$ 294,699                       |

Actuarial Assumptions

The total pension liability in the June 30, 2018, actuarial valuation was determined using an individual entry-age normal actuarial cost method and following the actuarial assumptions:

1. General Employees Fund Actuarial Assumptions

| Assumptions                  | GERF           |
|------------------------------|----------------|
| Inflation                    | 2.50% per year |
| Active Member Payroll Growth | 3.25% per year |
| Investment Rate of Return    | 7.50%          |

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25 percent per year for the General Employees Plan.

Actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies. The most recent six-year experience study in the General Employees Plan was completed in 2015. Economic assumptions were updated in 2017 based on a review of inflation and investment return assumptions.

The following changes in PERA actuarial assumptions and plan provisions occurred in 2018:

Changes in Actuarial Assumptions:

- The morality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

Changes in Plan Provisions:

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.0 percent to 3.0 percent, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.

Changes in Plan Provisions (Continued):

- Post-retirement benefit increases were changed from 1.0 percent per year with a provision to increase to 2.5 percent upon attainment of 90 percent funding ratio to 50 percent of the Social Security Cost of Living Adjustment, not less than 1.0 percent and not more than 1.5 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

**2. TRA Actuarial Assumptions**

The total pension liability in the June 30, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

| <b>Key Methods and Assumptions Used in Valuation of Total Pension Liability</b> |   |

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage and by adding expected inflation.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class                          | Target Allocation | Long-Term Expected Real Rate of Return |

The TRA actuary has determined the average of the expected remaining service lives of all members for the fiscal year 2016 is six years. The *Difference Between Expected and Actual Experience, Changes of Assumptions, and Changes in Proportion* uses the amortization period of six years in the schedule presented. The amortization period for *Net Difference Between Projected and Actual Investment Earnings on the Pension Plan Investments* is five years as required by GASB 68.

The following changes in TRA actuarial assumptions since the 2017 valuation:

- The COLA was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% in January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next 6 years, (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

Discount Rate

1. General Employees Fund Discount Rate

The discount rate used to measure the total pension liability in 2018 was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at the rates specified in Minnesota Statutes. Based on those assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

2. TRA Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent. This is an increase from the discount rate at the prior measurement date of 5.12 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal 2018 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

Pension Liability Sensitivity

The following presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

**10. Defined Contribution Plan**

---

The District provides eligible employees future retirement benefits through the District's 403(b) Plan (the "Plan"). Employees of the District are eligible to participate in the Plan commencing on the date of their employment. Eligible employees may elect to have a percentage of their pay contributed to the Plan. Some employees are eligible to receive a District match of employee contributions up to the qualifying amounts set forth in their respective collective bargaining agreements. Contributions are invested in tax deferred annuities selected and owned by Plan participants. The District contributions for the years ended June 30, 2019, 2018, and 2017 were \$124,500, \$110,508, and \$106,045, respectively. The related employee contributions were \$394,145, \$364,711, and \$386,458 for the years ended June 30, 2019, 2018, and 2017, respectively.

**11. Flexible Benefit Plan**

---

The District has a flexible benefit plan which is classified as a “cafeteria plan” under Section 125 of the Internal Revenue Code. All employees of the District are eligible to participate in the plan if and when the collective bargaining agreement or contract with their group allows eligibility. Employees can elect to contribute pre-tax dollars withheld from compensation to the plan for health care and dependent care benefits.

Before the beginning of the plan year, which is from January 1 to December 31, each participant designates a total amount of pre-tax dollars to be contributed to the plan during the year. At June 30, the District is contingently liable for claims against the total amount of participants’ annual contributions to the medical reimbursement portion of the plan, whether or not such contributions have been made.

Payments of insurance premiums (health, life, and disability) are made by the District directly to the designated insurance companies. These payments are made on a monthly basis and are accounted for in the appropriate fund.

All plan property and income attributable to that property is solely the property of the District, subject to the claims of the District’s general creditors. Participants’ rights under the plan are equal to those of general creditors of the District in an amount equal to eligible health care expenses incurred by the participants. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

Plan Description

The District operates single-employer retiree benefit plan (“the Plan”) that provides health insurance to eligible employees and their spouses through the District’s health insurance plan. There are 406 active participants, 73 retired participants and 17 spouses. Benefit and eligibility provisions are established through negotiations between the District and various unions representing District employees and are renegotiated at various times. The Plan does not issue a publicly available financial report.

Contributions

Contributions requirements are also negotiated between the District and union representatives. The District contributes the premiums for family medical or premiums for single medical for teachers hired before July 1, 2008 and retiring prior to July 1, 2010 and other eligible retired plan members. Also, for teachers hired before July 1, 2008 and retiring on or after July 1, 2010, a \$11,500 annual contribution to an HRA will be made by the District. The District also contributes an implicit rate subsidy for retired plan members. This is due to the actual cost for retirees being higher than the average per-person premium for the entire group. For fiscal year 2019, the District did not make any contributions to the plan.

Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The components of the net OPEB liability of the District at year-end were as follows:

|  |                       |
|--|-----------------------|
| Total OPEB liability   | \$ 6,825,165          |
| Plan fiduciary net position  | <u>10,101,585</u>     |
| District's net OPEB liability  | <u>\$ (3,276,420)</u> |
| Plan fiduciary net position as a<br>percentage of the total OPEB liability | <u>148.00%</u>        |

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

|                                |   |
|--------------------------------|---|
| Discount rate                  | 6.20%   |
| Expected return on plan assets | 6.20%   |
| Inflation rate                 | 2.50%   |
| Mortality                      | Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2016 Generational Improvement Scale.  |
| Medical trend rate             | 6.25% in fiscal year 2018 grading to 5.00% over 5 years.<br>The medical trend rate has been chosen based on a review of historical medical increase rates, projected medical increase rates, and projected health care expenditures as a percentage of GDP. The components of health care costs were considered when developing the aggregate set of trend rates. |

The actuarial assumptions used in the latest valuation were based on those used to value pension liabilities for Minnesota school district employees. The state pension plans base their assumptions on periodic experience studies.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimates of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These asset class estimates are combined to produce the portfolio long-term expected rate of return by weighting the expected future real rates of return by the current asset allocation percentage (or target allocation, if available) and by adding expected inflation (2.50%).

**12. Other Post-Employment Benefits (Continued)**

All results are then rounded to the nearest quarter percentage. Best-estimates of geometric real and nominal rates of return for each major asset class included in the OPEB plan's asset allocation as of the measurement date are summarized in the following table:

| Asset Class                 | Target Allocation | Expected Class<br>Return |
|-----------------------------|-------------------|--------------------------|
| Cash                        | 1%                | 2.50%                    |

| Real Estate                 | 10%               | 8.70%                    |
| Other (Hedged Equity Funds) | 10%               | 5.80%                    |
| Total Portfolio             | 100%              | 6.20%                    |

Discount Rate

The discount rate used to measure the OPEB liability was 6.20%. Per GASB guidance, the single rate that produced the same present value of expected benefit payments as (1) the expected long-term rate of return on plan assets during the period when projected assets are sufficient to pay future retiree benefits, and (2) the 20-year municipal bond rate after assets are projected to be exhausted.

**13. Risk Management**

---

The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries insurance for employee health, liability, property, and automotive insurance. Settled claims resulting from these risks have not exceeded the insurance coverage in any of the past three years. There was no reduction in insurance coverage during 2019.

---

**14. Operating Lease**

---

The District has entered into operating leases for real estate and copiers. The minimum rental commitment on the leases in effect at June 30, 2019 is as follows:

| Year Ending June 30, | Annual Lease<br>Payments |
|----------------------|--------------------------|
| 2020                 | \$ <u>51,814</u>         |

Rent expense under the operating leases for the year ending June 30, 2019 was \$51,814.

Federal and State Programs

The District participates in a number of federal and state agency assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District does not anticipate any audit adjustments or disallowed program expenditures that would be material in relation to the general purpose financial statements taken as a whole.

---

**16. Jointly Governed Organization**

---

The Goodhue County Education District No. 6051-61 was established by an act of the 1987 Legislature of the State of Minnesota. The primary objective of the District is to provide, by a cooperative effort, comprehensive educational programs and other related services as can be effectively operated by its five member districts. Each member district shares in the cost of the programming, which is paid to the education district in the form of membership fees, reimbursements, and other charges for services. The education district is able to recover the cost of its programs through the previously mentioned revenue sources. The jointly governed organization's financial statements are audited and available for inspection.

**SINGLE AUDIT REPORTS**

**JUNE 30, 2019**

**(This Page Left Blank Intentionally)**

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Education  
Independent School District #256  
Red Wing, Minnesota

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District #256, Red Wing, Minnesota, as of and for the year ended June 30, 2019, and the related notes to financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 15, 2019. We conducted our audit in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the provisions of the *Minnesota Legal Compliance Audit Guide for School Districts* promulgated by the Legal Compliance Task Force pursuant to Minnesota Statutes Section 6.65.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit the attention of those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Minnesota Legal Compliance**

The *Minnesota Legal Compliance Audit Guide for School Districts*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, contains seven main categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interests, public indebtedness, claims and disbursements, uniform financial accounting and reporting standards for school districts, and miscellaneous provisions. Our study included all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for School Districts*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Education  
Independent School District #256  
Red Wing, Minnesota

### **Report on Compliance for Each Major Federal Program**

We have audited Independent School District #256, Red Wing, Minnesota's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### ***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, Independent School District #256, Red Wing, Minnesota, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

**Report on Internal Control Over Compliance (Continued)**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District #256, Red Wing, Minnesota, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated October 15, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**Purpose of this Report**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

---

**1. General**

---

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Independent School District #256, Red Wing, Minnesota under programs of the federal government for the year ended June 30, 2019. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in assets, or cash flows of the District.

All pass-through entities listed in the Schedule use the same CFDA numbers as the federal grantors to identify these grants, and have not assigned any additional identifying numbers.

---

**2. Basis of Accounting**

---

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

---

**3. Food Distribution**

---

## INDEPENDENT AUDITOR'S REPORT

To the Board of Education  
**Independent School District #256**  
Red Wing, Minnesota

We have audited the statements of cash receipts and disbursements of the student activity accounts of Independent School District #256, Red Wing, Minnesota for the year ended June 30, 2019. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on the financial statements based on our audit.

Except as discussed in the following paragraph, we conducted our audit in accordance with accounting standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The District has not established procedures to provide assurance that all cash collections are recorded in the accounting records. Accordingly, it was not practicable for us to extend our audit of such cash collections beyond the amounts recorded.

Because the financial statements are prepared on the basis of cash receipts and disbursements, revenue is recorded when received rather than when earned, and expenses are recognized when paid rather than when the obligations are incurred. Accordingly, the accompanying financial statements are not intended to present financial position and results of operations in conformity with United States generally accepted accounting principles.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had the cash collections referred to above been susceptible to satisfactory audit tests, the financial statements referred to above presents fairly, in all material respects, the cash balances of the District's Student Activity Funds as of June 30, 2019, and the receipts and disbursements for the year then ended on the basis of accounting describe in the notes to the Student Activity Funds Financial Statement.

**NOTES TO STUDENT ACTIVITY FUNDS FINANCIAL STATEMENTS**

---

**1. General**

---

Student activity fund transactions are defined as extracurricular programs conducted for the motivation and enjoyment of students. These programs and activities are not offered for school credits nor required for graduation. Activities are generally conducted outside of school hours. The content of the activities is determined primarily by the students, under the guidance of a staff member or other adult.

Student activities are to be self-sustaining with all expenses paid by dues, admissions, or other student fund raising events.

The accounts of the Student Activity Funds are maintained, and the accompanying financial statements have been prepared, on the cash basis of accounting. Consequently, receipts are recognized when received rather than when earned, and disbursements are recognized when paid rather than when the obligations are incurred.

### INDEPENDENT AUDITOR'S REPORT

To the Board of Education  
**Independent School District #256**  
Red Wing, Minnesota

We have audited the statements of cash receipts and disbursements of the extracurricular student activity accounts of Independent School District #256, Red Wing, Minnesota for the year ended June 30, 2019, and have issued our report thereon dated October 15, 2019.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the provisions of the *Manual for Activity Fund Accounting for Minnesota School Districts*, issued by the Minnesota Department of Education.

The *Manual for Activity Fund Accounting for Minnesota School Districts* provides financial and accounting and reporting standards for student activities. We have performed auditing procedures to test compliance with the provisions of this manual. However, our objective was not to provide an opinion on overall compliance with such provisions.

The results of our tests indicate that, with respect to the items tested, the District complied with the provisions referred to in the preceding paragraph, except as described in the accompanying schedule of findings.

The report is intended for the information of the School Board, management, and students of Independent School District #256 and the Minnesota Department of Education and is not intended to be and should not be used by anyone other than those specified parties.
