License Renewal Conditions

Mandatory Renewal Requirements for the Renewal of Tier 3 and Tier 4 Licenses

The renewal of Tier 3 teaching and related services (non-teaching) licenses requires the completion of 75 clock hours and the renewal of Tier 4 teaching and related services (non-teaching) licenses requires the completion of 125 clock hours of professional development. An applicant seeking renewal must earn a minimum of 75 clock hours during each three-year period preceding a Tier 3 renewal and a minimum of 125 clock hours during each five-year period preceding a Tier 4 renewal. As part of the 75 and 125 professional development hours, the Minnesota Legislature, by statute, currently requires ALL teachers to evidence the mandatory requirement areas shown below. All hours completed must be approved through the local school district's continuing education committee.

Each school district, through its continuing education committee, is charged with determining the requirements to meet this condition. The legislation intentionally provides latitude so that districts can determine the requirement based on local goals and needs. Teachers should work through their local continuing education committee for guidance about what is expected and where to obtain the professional development.

Online professional development opportunities may be used to meet the requirements, as long as they meet the rule requirements. Educators (teaching and non-teaching) should work through their local continuing education committee for guidance about what is expected and where to obtain the professional development.

Positive Behavioral Intervention Strategies
