### Heisman High School Scholarship Program

#### Hawaii Winner

The Heisman® High School Scholarship was created in 1994 through a partnership between Wendy's® and The Heisman Trophy Trust. From its inception, the program has leveraged the reputation of the Heisman Memorial Trophy as a symbol of great ability combined with diligence, perseverance, and hard work. The Heisman High School Scholarship program extends the Heisman prestige to the nation's most esteemed high school seniors by celebrating and rewarding outstanding male and female scholar-athletes who understand that the most important victories happen not only on the field, but also in their schools and communities. Over the past 28 years, the program has honored more than 600,000 of the nation's most esteemed high school seniors and provided hundreds of thousands of dollars in college scholarships to students and more than a million dollars to high school academic and athletic programs across the country. The Heisman High School Scholarship program honors the nation's most accomplished, community-minded high school senior athletes. By inviting male and female students from schools across the country to share their stories of leadership and impact, the program aims to inspire all students to harness their potential, push their limits, and use their talents not only to advance their own futures, but to improve the communities and world around them.

## **Kalani High School Coast Guard Junior ROTC Program**

Congress has mandated that there needs to be at least 1 CGJROTC Unit in every congressional district by 2025. Kalani High School has been approached and has submitted an application for program consideration starting in the Fall of 2024.

**We have received tentative approval and Maritime Science 1-4 will be listed in our Manual of Studies for SY24-25.**

JROTC is not just for those students who are interested in serving in the military!

- In fact, less than 5% of students enrolled in JROTC ever join a branch of the service.
- However, we will assist those students who desire to achieve their goal to serve in the military.
- Instructors also assist JROTC students to achieve their post-secondary goals for college scholarships, college enrollments, A+ benefits, and trade schools
- Our main goal is to provide citizenship and leadership development focusing on those Essential Learning Skills (Soft Skills) necessary for today's competitive workforce.

### **CGJROTC Program Mission and Goals**

The **mission** of CGJROTC is *developing service-minded citizens of character.*

- Building character and values
- Learning about government and military operations from history to present day
- Preparing for a successful career
- Honoring community and country
- Learning to lead self, to lead others, and to be a positive and productive team member

CGJROTC is a strategic investment in our future citizens and leaders with near and long-term benefits for the Service and society.

## **AHERA**

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) which mandated the Asbestos-Containing Materials in Schools Rule, 40 CFR Part 763. It requires all primary and secondary school buildings to be inspected by AHERA accredited inspectors and to identify all asbestos-containing building materials. The rule further requires the development of a management plan by an AHERA accredited management planner that is based on the findings of the inspection. The management plan outlines our intent in controlling the potential for exposure to asbestos fibers in our school. In February 2001, Hawaii Administrative Rules Chapter 11-502 was adopted by the Hawaii State Legislature. These rules essentially mirror the requirements of the AHERA regulations. In both cases, the rule requires our school to notify parents, teachers, and employees of the presence and status of asbestos containing material in our school buildings.

The initial inspection of our school was conducted in 1958 and identifies some asbestos-containing materials. Since that time, we continue to conduct periodic surveillances and triennial re-inspections to ensure that the asbestos-containing materials remain in good condition and do not pose a hazard to our students and staff. An asbestos management plan was drafted based on our initial inspection and submitted to the Hawaii State Department of Health. It outlines in detail the methods we will use to maintain the material in a safe manner. The management plan is updated regularly as asbestos is removed or conditions change. A copy of the management plan is on file in the administrative office and is available for your review during our regular school hours. Should you have any questions, please call the school at 808-305-0500.
