Campus Safety

The Hawaii Department of Education Safety, Security and Emergency Preparedness Branch is responsible for the security of Department campuses. Our schools and state offices are secured as best as possible to prevent theft, vandalism, trespassing and acts of violence. Annual training is provided for all security personnel with continued research into security best practices and the latest technology.

School and student safety is a responsibility for all involved — administrators, staff, teachers, students, families, law enforcement and the broader community. Safety and security are necessary in order for learning to take place.

Closed Campus

Kalani is a closed campus. The Hawaii Kai entrance to our campus is locked from 8:30am – 1:30pm. Security is posted at the Ewa entrance and the back parking lot and we will monitor all cars entering campus.

Uber Eats and other food delivery companies will be stopped and turned away (School Food Services Guidelines).

Chapter 19

In order to keep our schools safe, rules have been established relating to student misconduct; these rules also govern searches of students and seizures of property. Hawaii Administrative Rules, [Chapter 19](#), are derived from state law. It's important that students and parents review this information to be aware of the consequences of a Chapter 19 violation.

Kalani High Surveillance Cameras

Kalani High School installed surveillance cameras on the outside of buildings throughout our campus in 2017. The surveillance cameras are used to provide for the safety of our staff and students and to maintain the security of our buildings and personal property. The intent of the use of the video surveillance cameras is to provide a safe environment for our student by deterring outsiders from entering out campus for inappropriate reasons and to monitor our campus for vandalism and student misconduct. Our cameras are placed in public places, areas where there is no expectation of privacy – school entrances, hallways, exterior of buildings and other open areas on campus. The cameras are NOT placed in areas where students, staff or visitors may have a reasonable expectation of privacy – classrooms, offices, teacher workrooms, restrooms, locker rooms or other designated dressing rooms. The surveillance cameras are just one of the ways that we use to create a safe and secure learning environment at Kalani High School. If you have any questions and/or concerns regarding our surveillance cameras, please call any of the administrative staff at 305-0500.

AHERA

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) which mandated the Asbestos-Containing Materials in Schools Rule, 40 CFR Part 763. It requires all primary and secondary school buildings to be inspected by AHERA accredited inspectors and to identify all asbestos-containing building materials. The rule further requires the development of a management plan by an AHERA accredited management planner that is based on the findings of the inspection. The management plan outlines our intent in controlling the potential for exposure to asbestos fibers in our school. In February 2001, Hawaii Administrative Rules Chapter 11-502 was adopted by the Hawaii State Legislature. These rules essentially mirror the requirements of the AHERA regulations. In both cases, the rule requires our school to notify parents, teachers, and employees of the presence and status of asbestos containing material in our school buildings.

The initial inspection of our school was conducted in 1958 and identifies some asbestos-containing materials. Since that time, we continue to conduct periodic surveillances and triennial re-inspections to ensure that the asbestos-containing materials remain in good condition and do not pose a hazard to our students and staff. An asbestos management plan was drafted based on our initial inspection and submitted to the Hawaii State Department of Health. It outlines in detail the methods we will use to maintain the material in a safe manner. The management plan is updated regularly as asbestos is removed or conditions change. A copy of the management plan is on file in the administrative office and is available for your review during our regular school hours. Should you have any questions, please call the school at 808-305-0500.
