Vision: Character. Compassion. Community.

**Mission : We at Kalani High School create opportunities to discover our passions, purpose, and personal pursuits.
"A vision is not just a picture of what could be; it is an appeal to our better selves, a call to become something more."**

Ne'epapa: Educating our Future

To move as a whole or unit; moving or working together in unison

Be Thankful - Be Safe

2023 – We welcome the new year with renewed optimism of things that are yet to come.

We say farewell to the old and hold dear to us the memories of the past. Be thankful for family and friends and may the new year bring with it the promise of new opportunities and endless possibilities to change our lives for the better.

I am grateful for the support of the Kalani Ohana as we continue to work together to support each other and the larger community. Through your words, actions, and generosity, you are helping to create a stronger Kalani High School and a brighter future for our students, our faculty, and the community we serve.

Thank you for all that you do.

Wishing all of you a safe, prosperous and happy new year.

Mitchell Otani - Principal

AHERA

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) which mandated the Asbestos-Containing Materials in Schools Rule, 40 CFR Part 763. It requires all primary and secondary school buildings to be inspected by AHERA accredited inspectors and to identify all asbestos-containing building materials. The rule further requires the development of a management plan by an AHERA accredited management planner that is based on the findings of the inspection. The management plan outlines our intent in controlling the potential for exposure to asbestos fibers in our school. In February 2001, Hawaii Administrative Rules Chapter 11-502 was adopted by the Hawaii State Legislature. These rules essentially mirror the requirements of the AHERA regulations. In both cases, the rule requires our school to notify parents, teachers, and employees of the presence and status of asbestos containing material in our school buildings.

The initial inspection of our school was conducted in 1958 and identifies some asbestos-containing materials. Since that time, we continue to conduct periodic surveillances and triennial re-inspections to ensure that the asbestos-containing materials remain in good condition and do not pose a hazard to our students and staff. An asbestos management plan was drafted based on our initial inspection and submitted to the Hawaii State Department of Health. It outlines in detail the methods we will use to maintain the material in a safe manner. The management plan is updated regularly as asbestos is removed or conditions change. A copy of the management plan is on file in the administrative office and is available for your review during our regular school hours. Should you have any questions, please call the school at 808-305-0500.
