***Congratulations***

***Presidential Scholar Semi-Finalist***

***Emily Yang***

*(one of 8 Hawaii semi-finalists)*

*The U.S. Presidential Scholars Program was established in 1964, by executive order of the President, to recognize and honor some of our nation's most distinguished graduating high school seniors. In 1979, the program was extended to recognize students who demonstrate exceptional talent in the visual, creative and performing arts. In 2015, the program was again extended to recognize students who demonstrate ability and accomplishment in career and technical education fields. Each year, up to 161 students are named as Presidential Scholars, one of the nation's highest honors for high school students.*

## **Construction on Campus**

**On January 30<sup>th</sup>, NAN Inc, General contractors, began the construction of the long awaited Girls Varsity Locker Room along with a new Judo and Wrestling Room. This new facility, a Title IX Project will be constructed between the gym and track. It will be the first new building on campus since the pool was built in 1975. The girls have been without a Varsity Locker Room since the school was built in 1958. There is a Boys Varsity Locker Room. We are grateful for all of your help in making a successful transition to the new route through our school. We had a minimum of problems before and after school. Your diligence and patience helps to provide for the safety of all members of our community of learners. We know that this new facility will enhance the overall education and experience for your child. Thank you.**

*Mahalo to Representative Mark Hashem for his support of this project.*

*Mitchell Otani - Principal*

## **Installation of PV System at Kalani**

**Kalani is also installing a PV system on the rooftops of Buildings E, the Office and the cafeteria.  
This project will lower the amount of electricity that the school uses during peak hours  
– thus, reducing our electricity bill.**

**Maunakea Scholars Program**

Three ambitious Kalani High School students will conduct sophisticated astronomical research using some of the world's most powerful telescopes. The aspiring astronomers were awarded time to use two Maunakea observatories as a part of the Maunakea Scholars program-an innovative partnership between the Maunakea Observatories and the Hawaii State Department of Education (HIDOE).

Working alongside Institute for Astronomy graduate student mentors at the University of Hawaii, the students developed professional-style research proposals for the review and selection of the Maunakea Scholars time allocation committee.

The committee selected the three winning proposals:

**Spencer Young** was awarded two hours of observing time with the East Asian Observatory (EAO) using the James Clerk Maxwell Telescope (JCMT) POL-2 instruments for his research proposal, "Star forming regions and how they retain their shapes."

**David Higashi** was awarded one hour of observing time with Canada-France-Hawaii Telescope (CFHT) using the instrument ESPaDOnS for his research proposal, "The Creation of the Moon."

*Jordaynelexi Drasal* was awarded 30 minutes of observing time with CFHT using the instrument Megacam for her research proposal, "Globular Star Clusters."

### **Manoa Academy Pilot Program**

Director of Global Studies, Lesley Thorne of the University of Hawaii College of Social Sciences is pleased to announce that five students from Kalani High School have been admitted into the University of Hawaii at Manoa through the Manoa Academy pilot program.

The admitted students are: Jin Kim Ikumi Utashiro Kalena Kimura Chengxi Liang Becky Lei

The Mānoa Academy is an innovative program offered by the College of Social Sciences (CSS) at the University of Hawai'i at Mānoa (UHM) for select Hawai'i high school juniors and seniors. Eligible students have the opportunity to enroll in three-credits of undergraduate coursework during the Spring 2017 semester on the Mānoa campus and earn early acceptance into UHM for Fall 2017 (Fall 2018 for high school juniors). The college course will meet degree requirements necessary to graduate with a degree from UH Mānoa. Classes will be offered during the week - after school or online. Mānoa Academy students will not only have access to University resources, but will also have the opportunity to work with undergraduate student tutors and mentors specific to their enrolled class.

### **National Public Radio features Kalani Musicians** (from the Star Advertiser)

This will be the fifth time "From the Top" has come to Hawaii. In the past 12 years, NPR has produced seven shows on Oahu, Maui and Hawaii island. Sixteen-year-old Chance Yagi (senior) and his 18-year-old brother, Given (Class of 2016), both students at Kalani High School, performed at the Blaisdell. Both brothers play multiple instruments and various musical styles, including taiko, marching band and jazz, but will be playing ukulele for the NPR show with their award-winning group 4U Ukulele Quartet.

Members of the **Kalani High School Wind Ensemble** participated in the **Music For All National Concert Band Festival**.

### **Partnerships**

#### **Japan Super Science Fair**

Kalani High School was well represented at this year's Japan Super Science Fair in Kyoto, Japan.

Leslie Horita, Kacie Kajihara, Moriah Tom, Chance Yagi and Emily Yang (accompanied by Mr. Okawa) presented their research topic "Effect of Myostatin Inhibition on Rheumatoid Arthritis" and performed their Cultural Presentation last week at Ritsumeikan Senior High School. The Ritsumeikan Super Science Fair was organized in 2003 as a place for scientific exchange, concentrating on scientific research presentations by high school students. The Ritsumeikan Super Science Fair changed its name to the Japan Super Science Fair in 2011 in order to widen its scope not only in Japan but around the world. There are 47 schools represented at this year's JSSF, including schools from Australia, Canada, France, Hong Kong, Indonesia, Iran, Kenya, Korea, Malaysia, Mongolia, Nepal, the Netherlands, New Caledonia, the Philippines, Russia, Singapore, Taiwan, Thailand, the United Kingdom, the United States, Vietnam and host country Japan.

### **Jeju Student Forum**

Kalani High School was well represented at the Jeju Student Forum in Korea. Erin Terada, Shayn Toothman, Kaitlyn Yong and Austin Young (accompanied by Counselor Trevor Teraoka) represented Hawaii and the United States. The Jeju Youth Forum is a creative platform for youth to exchange their opinions and ideas. Through various panel discussions on peace, environmental concerns, bullying, and other topics faced by the international community, participating students from all over the world build up skills in global leadership and help to formulate international consensus. It is indeed hoped that this year's Forum served as a way for our students to form global friendships and cooperation through the virtues of understanding, enthusiasm, wisdom, and trust.

Mahalo to the Department of Business and Economic Development for sponsoring this trip.  
Congratulations Austin Young. He received a Certificate of Appointment from the Governor of Jeju.  
Austin and one Jeju student were selected as Jeju Honorary Youth Ambassadors.

### **Kalani High School to Participate in the College Board's AP Capstone™ Program**

#### **Diploma Program Focuses on Inquiry, Research, and Writing Skills Crucial for College and Career Success**

Honolulu, Hawaii — Kalani High School is one of approximately 1,000 schools worldwide to implement AP Capstone™—an innovative diploma program that allows students to develop the skills that matter most for college success: research, collaboration, and communication. The program consists of two courses taken in sequence: AP® Seminar and AP Research. Developed in direct response to feedback from higher education faculty and college admission officers, AP Capstone complements the in-depth, subject-specific study of other Advanced Placement® courses and exams.

Students who earn scores of 3 or higher on AP Seminar and AP Research assessments and on four additional AP Exams of their choosing will earn the AP Capstone Diploma™. This signifies their outstanding academic achievement and attainment of college-level academic and research skills. Students who earn scores of 3 or higher on both AP Seminar and AP Research assessments only (but not on four additional AP Exams) will earn the AP Seminar and Research Certificate™. Kalani High School will start AP Seminar in the fall of 2017.

*“This innovative program gets a broader, more diverse student population ready for college and beyond.. The program gives our teachers more leeway with curriculum choices so their students can access more challenging coursework and sharpen their reading and writing skills.”*

- Mitchell Otani, Principal

The AP Seminar course, typically taken in 10th or 11th grade, equips students with the ability to look at real-world issues from multiple perspectives. Through a variety of materials—articles to research studies to foundational and philosophical texts—students tackle complex questions; understand and evaluate opposing viewpoints; interpret and synthesize information; and construct, communicate, and defend evidence-based arguments. Education, innovation, sustainability, and technology are examples of themes or topics covered in AP Seminar. However, teachers have the flexibility to choose subject content based on student interests, whether local, regional, national, or global. By tapping into students' personal interests, AP Capstone gives students from a wide range of backgrounds an entry point into stimulating coursework more than ever before. Students are assessed through: a team project and presentation, an individual project and presentation, and an end-of-course written exam.

In the subsequent AP Research course, students design, plan, and conduct a yearlong research-based investigation on a topic of individual interest, documenting their process with a portfolio. Students build on skills developed in the AP Seminar course by learning how to understand research methodology; employ ethical research practices; and collect, analyze, and synthesize information to build, present, and defend an argument.
