"A candle loses nothing by lighting another candle"

Congratulations Presidential Scholar Emily Yang

The U.S. Presidential Scholars Program was established in 1964, by executive order of the President, to recognize and honor some of our nation's most distinguished graduating high school seniors. In 1979, the program was extended to recognize students who demonstrate exceptional talent in the visual, creative and performing arts. In 2015, the program was again extended to recognize students who demonstrate ability and accomplishment in career and technical education fields. Each year, up to 161 students are named as Presidential Scholars, one of the nation's highest honors for high school students. The 2017 U.S. Presidential Scholars are comprised of **one young man and one young woman** from each state, the District of Columbia and Puerto Rico, and from U.S. families living abroad

We cultivate, connect, and celebrate U.S. Presidential Scholars – past, present and future.

Each year, 161 of the nation's top high school graduates are chosen to be U.S. Presidential Scholars and are honored by the White House. These Scholars go on to advance the arts, culture, business, education, and civic life of the nation. We help them achieve their goals by connecting them to each other and supporting them throughout their careers.

Emily Yang - Kalani High School

The United States Presidential Scholars Program was established in 1964, by Executive Order of the President, to recognize and honor some of our Nation's most distinguished graduating high school seniors. In 1979, the Program was extended to recognize students who demonstrate exceptional talent in the visual, creative and performing arts. In 2015, the program was again extended to recognize students who demonstrate ability and accomplishment in career and technical education fields. Each year, up to 161 students are named U.S. Presidential Scholars, one of the Nation's highest honors for high school students. The Scholars represent excellence in education and the promise of greatness in young people. In honoring the U.S. Presidential Scholars, the President of the United States symbolically honors all graduating high school seniors of high potential.

Presidential Scholar continued

Students have the opportunity to become Presidential Scholars based on three paths of accomplishment. The majority of the Scholars are selected on the basis of broad academic achievement.

The selection of approximately 4,000 original program candidates generally is made based on SAT and ACT scores. Test scores in each of the states/jurisdictions are reviewed, and the total SAT score is compared to the ACT Sum of Scores. Each student's highest test score (in a single test administration) is identified; duplicates and/or lower scores are dropped. In each state, scores are ranked from high to low. Approximately twenty females and twenty males are selected as candidates from each state, the District of Columbia, the Commonwealth of Puerto Rico, and from families of U.S. citizens living abroad based on SAT and ACT scores.

Application is by invitation only; therefore, students may not apply individually to the Program, nor may their schools nominate them. A review committee of qualified individuals experienced in secondary and post-secondary education evaluates candidates on their academic achievement, personal characteristics, leadership and service activities, and an analysis of their essay. Approximately 800 candidates are named semifinalists and forwarded to the Commission for further review.

In April, the Commission on Presidential Scholars reviews the applications of all semifinalists based on the same criteria used by the review committee. The Commission selects up to 161 U.S. Presidential Scholars each year. All scholars are honored for their accomplishments during the National Recognition Program, held in June in Washington, D.C. U.S. Presidential Scholars are guests of the Commission during the National Recognition Program and enjoy an expenses paid trip to Washington, D.C., to meet with government officials, educators, and other accomplished people. To commemorate their achievement, the Scholars are awarded the U.S. Presidential Scholars medallion at a ceremony sponsored by the White House.

For over 50 years, this unique federal program has honored over 7,000 U.S. Presidential Scholars, who have demonstrated leadership, scholarship, and contribution to school and community. The work of the Commission on Presidential Scholars reaffirms, on behalf of the President, the Nation's commitment to education.

**Presidential Scholars Honors Dinner & Salute to the 2017 U.S. Presidential Scholars Performance

University of Hawaii Chancellor Scholarship Awardees

We are proud to announce that the following Kalani High seniors are the recipients of the Manoa Chancellor's Scholarships which provide \$12,000 per year for four years. Kalani's awardees are:

<i>Zoe Asahan</i>	<i>Mary Garrison</i>	<i>Kobi Gima</i>	<i>Jocelyn Grandinetti</i>
<i>Victoria Hahn</i>	<i>James Lawhn</i>	<i>Sara Matsumura</i>	<i>Joy Okimoto</i>
<i>Chance Yagi</i>	<i>Melissa Yago</i>	<i>Emily Yang</i>	<i>Raellis Young</i>

Citizenship Award

The Citizenship Award recognizes 44 seniors (one from each of the 44 public high schools in the state) for their scholastic achievements and their praiseworthy contributions to making Hawaii a better place through public service.

Congratulations to Mary Garrison

National Merit Scholarship Program

The following juniors took the PSAT/National Merit Qualifying Test and met the requirements to enter the 2017 National Merit Scholarship Program. With an index score of 209 or above, these high performers show outstanding academic potential. Listed alphabetically

Lilianne Au Victor Ho

Go Falcons!
Science Fair Qualifiers for ISEF
Mika Ishii Emily Yang

Both students will represent the Honolulu District and the State of Hawaii at the International Science and Engineering Fair in California

Construction on Campus

On January 30th, NAN Inc, General contractors, began the construction of the long awaited Girls Varsity Locker Room along with a new Judo and Wrestling Room. This new facility, a Title IX Project will be constructed between the gym and track. It will be the first new building on campus since the pool was built in 1975. The girls have been without a Varsity Locker Room since the school was built in 1958. There is a Boys Varsity Locker Room. We are grateful for all of your help in making a successful transition to the new route through our school. We had a minimum of problems before and after school. Your diligence and patience helps to provide for the safety of all members of our community of learners. We know that this new facility will enhance the overall education and experience for your child. Thank you.

Mahalo to Representative Mark Hashem for his support of this project.

ATHLETICS – Go Falcons

ACADEMIC REVIEW STATUS: Next Grade check – May 8, 2017

The parent/guardian whose child is on Academic Review Status (ARS) is encouraged to stay in close communication with their child’s teacher, counselor and coach. All parties should work in unison to ensure that the student-athlete has the greatest opportunity to be successful in their academics so that they may become eligible to participate in athletics.

Athletes on ARS cannot travel off-island for any pre-season tournaments or games.

This policy is in effect to allow the student-athlete to focus on academics (should not miss classes)

Congratulations

National Merit Finalists

Congratulations to Kacie Kajihara and Emily Yang

National Merit Scholarship

Congratulations to **Emily Yang**

Emily has been selected as a winner of a National Merit \$2,500 Scholarship

National Merit Semi-Finalist

Congratulations to **Kacie Kajihara** and **Emily Yang**

Kacie and Emily are amongst the 16,000 Semifinalists (two of the 66 in the State of Hawaii) in the 62nd annual National Merit Scholarship Program. These two academically talented high school seniors have the opportunity to continue in the competition for some 7,400 National Merit Scholarships worth more than 32 million that will be offered in the spring.

The minimum qualifying score on last year's PSAT test to be a semi-finalist is 217.

Congratulations also to Christopher Lindsay (transfer from Iolani) who is also a National Merit Semi-Finalist.

National Merit Commended Students

The following students have been named Commended Students in the 2017 National Merit Scholarship Program. About 34,000 Commended Students throughout the nation are recognized for their exceptional academic promise. These Commended Students placed among the top 5% of more than 1.5 million students who entered the 2017 competition by taking the

Preliminary SAT / National Merit Scholarship Qualifying Test last year.

"The young men and women named Commended Students have demonstrated outstanding potential for academic success. They represent a valuable national resource; recognizing their accomplishments, as well as the key role Kalani High School plays in their academic development, is vital to the advancement of educational excellence in our nation. –National Merit Scholarship Corporation

Pacific Asian Affairs Council Global Leadership Program

Twenty students were selected for the Pacific and Asian Affairs Council Leadership Program for 2016-2017. This 9 month program aims to improve participants' leadership skills, including effective communication, appreciation for diversity, public speaking, goal setting, accountability, and conflict resolution. The goal is to develop global citizens who are informed about global issues, empowered to make a difference, and feel connected with others around the world. Program components address personal leadership, social identity development, intercultural sensitivity and global citizenship.

Kalani is proud to announce that nine of our students were selected

**Niquerose Cacho Lauren Horita Rosalyn Kagimoto Taylor Kang Kailer Okura
Ashley Taylor Jenna Tsuzaki Julia Tsuzaki Cameron Woods**

Congratulations also to **Priscilla Hsu.**

Priscilla Hsu received a scholarship to go on a Philippine Study Tour (During Fall Break)
She traveled with Ms. Jill Takasaki Canfield, Executive Director, Pacific and Asian Affairs Council.

Maunakea Scholars Program

Three ambitious Kalani High School students will conduct sophisticated astronomical research using some of the world's most powerful telescopes. The aspiring astronomers were awarded time to use two Maunakea observatories as a part of the Maunakea Scholars program-an innovative partnership between the Maunakea Observatories and the Hawaii State Department of Education (HIDOE).

Working alongside Institute for Astronomy graduate student mentors at the University of Hawaii, the students developed professional-style research proposals for the review and selection of the Maunakea Scholars time allocation committee.

The committee selected the three winning proposals:

Spencer Young was awarded two hours of observing time with the East Asian Observatory (EAO) using the James Clerk Maxwell Telescope (JCMT) POL-2 instruments for his research proposal, "Star forming regions and how they retain their shapes."

David Higashi was awarded one hour of observing time with Canada-France-Hawaii Telescope (CFHT) using the instrument ESPaDOnS for his research proposal, "The Creation of the Moon."

Jordaynelexi Drasal was awarded 30 minutes of observing time with CFHT using the instrument Megacam for her research proposal, "Globular Star Clusters."

Manoa Academy Pilot Program

Director of Global Studies, Lesley Thorne of the University of Hawaii College of Social Sciences is pleased to announce that five students from Kalani High School have been admitted into the University of Hawaii at Manoa through the Manoa Academy pilot program.

The admitted students are: Jin Kim Ikumi Utashiro Kalena Kimura Chengxi Liang Becky Lei

The Mānoa Academy is an innovative program offered by the College of Social Sciences (CSS) at the University of Hawai‘i at Mānoa (UHM) for select Hawai‘i high school juniors and seniors. Eligible students have the opportunity to enroll in three-credits of undergraduate coursework during the Spring 2017 semester on the Mānoa campus and earn early acceptance into UHM for Fall 2017 (Fall 2018 for high school juniors). The college course will meet degree requirements necessary to graduate with a degree from UH Mānoa. Classes will be offered during the week - after school or online. Mānoa Academy students will not only have access to University resources, but will also have the opportunity to work with undergraduate student tutors and mentors specific to their enrolled class.

National Public Radio features Kalani Musicians (from the Star Advertiser)

This will be the fifth time “From the Top” has come to Hawaii. In the past 12 years, NPR has produced seven shows on Oahu, Maui and Hawaii island. Sixteen-year-old Chance Yagi (senior) and his 18-year-old brother, Given (Class of 2016), both students at Kalani High School, performed at the Blaisdell. Both brothers play multiple instruments and various musical styles, including taiko, marching band and jazz, but will be playing ukulele for the NPR show with their award-winning group 4U Ukulele Quartet.

Members of the **Kalani High School Wind Ensemble** participated in the **Music For All National Concert Band Festival**.

Congratulations also to Wind Ensemble members

Kassi Hatakenaka and Tiffany Nakayama

Kassi and Tiffany practiced and participated with the Honor Band of America at the **Music for All National Festival, presented by Yamaha**

Bryan Silver : 7-12 Presidential Awardee for Excellence in Mathematics and Science Teaching

Partnerships

Japan Super Science Fair

Kalani High School was well represented at this year's Japan Super Science Fair in Kyoto, Japan.

Leslie Horita, Kacie Kajihara, Moriah Tom, Chance Yagi and Emily Yang (accompanied by Mr. Okawa) presented their research topic “Effect of Myostatin Inhibition on Rheumatoid Arthritis” and performed their Cultural Presentation last week at Ritsumeikan Senior High School. The Ritsumeikan Super Science Fair was organized in 2003 as a place for scientific exchange, concentrating on scientific research presentations by high school students. The Ritsumeikan Super Science Fair changed its name to the Japan Super Science Fair in 2011 in order to widen its scope not only in Japan but around the world. There are 47 schools represented at this year's JSSF, including schools from Australia, Canada, France, Hong Kong, Indonesia, Iran, Kenya, Korea, Malaysia, Mongolia, Nepal, the Netherlands, New Caledonia, the Philippines, Russia, Singapore, Taiwan, Thailand, the United Kingdom, the United States, Vietnam and host country Japan.

Jeju Student Forum

Kalani High School was well represented at the Jeju Student Forum in Korea. Erin Terada, Shayn Toothman, Kaitlyn Yong and Austin Young (accompanied by Counselor Trevor Teraoka) represented Hawaii and the United States. The Jeju Youth Forum is a creative platform for youth to exchange their opinions and ideas. Through various panel discussions on peace, environmental concerns, bullying, and other topics faced by the international community, participating students from all over the world build up skills in global leadership and help to formulate international consensus. It is indeed hoped that this year's Forum served as a way for our students to form global friendships and cooperation through the virtues of understanding, enthusiasm, wisdom, and trust.

Mahalo to the Department of Business and Economic Development for sponsoring this trip.
Congratulations Austin Young. He received a Certificate of Appointment from the Governor of Jeju.
Austin and one Jeju student were selected as Jeju Honorary Youth Ambassadors.

Kalani High School to Participate in the College Board's AP Capstone™ Program

Diploma Program Focuses on Inquiry, Research, and Writing Skills Crucial for College and Career Success

Honolulu, Hawaii — Kalani High School is one of approximately 1,000 schools worldwide to implement AP Capstone™—an innovative diploma program that allows students to develop the skills that matter most for college success: research, collaboration, and communication. The program consists of two courses taken in sequence: AP® Seminar and AP Research. Developed in direct response to feedback from higher education faculty and college admission officers, AP Capstone complements the in-depth, subject-specific study of other Advanced Placement® courses and exams.

Students who earn scores of 3 or higher on AP Seminar and AP Research assessments and on four additional AP Exams of their choosing will earn the AP Capstone Diploma™. This signifies their outstanding academic achievement and attainment of college-level academic and research skills. Students who earn scores of 3 or higher on both AP Seminar and AP Research assessments only (but not on four additional AP Exams) will earn the AP Seminar and Research Certificate™. Kalani High School will start AP Seminar in the fall of 2017.

“This innovative program gets a broader, more diverse student population ready for college and beyond.. The program gives our teachers more leeway with curriculum choices so their students can access more challenging coursework and sharpen their reading and writing skills.”

- Mitchell Otani, Principal

The AP Seminar course, typically taken in 10th or 11th grade, equips students with the ability to look at real-world issues from multiple perspectives. Through a variety of materials—articles to research studies to foundational and philosophical texts— students tackle complex questions; understand and evaluate opposing viewpoints; interpret and synthesize information; and construct, communicate, and defend evidence-based arguments. Education, innovation, sustainability, and technology are examples of themes or topics covered in AP Seminar. However, teachers have the flexibility to choose subject content based on student interests, whether local, regional, national, or global. By tapping into students' personal interests, AP Capstone gives students from a wide range of backgrounds an entry point into stimulating coursework more than ever before. Students are assessed through: a team project and presentation, an individual project and presentation, and an end-of-course written exam.

In the subsequent AP Research course, students design, plan, and conduct a yearlong research-based investigation on a topic of individual interest, documenting their process with a portfolio. Students build on skills developed in the AP Seminar course by learning how to understand research methodology; employ ethical research practices; and collect, analyze, and synthesize information to build, present, and defend an argument.

Kalani High School announces Partnership with the University of Hawaii Center for Cognitive Behavior Therapy

Kalani High School is excited to announce our new partnership with the University of Hawaii Center for Cognitive Behavior Therapy. We would like to welcome our newest partner to our Community of Learners.

Alumni information

Congratulations
