SAT Information:

SAT registration is now open! Spots go QUICKLY so be sure to sign up for the test if you are interested in taking it.

We do NOT offer any SATs at Kalani.

Do you HAVE to take the SAT? The answer to this question is...it really depends on what you want to do and where you are aiming to apply for. Many schools are still test optional and do not require the SAT/ACT to apply to their schools. Some schools, especially the competitive schools or programs such as UH Nursing, international schools will REQUIRE the SAT/ACT. Do your research! Look at the requirements at the schools and programs you are interested in to see if you should take the SAT/ACT and what score you should aim for.

More information can be found on their website: <https://www.collegeboard.org/>

AHERA

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) which mandated the Asbestos-Containing Materials in Schools Rule, 40 CFR Part 763. It requires all primary and secondary school buildings to be inspected by AHERA accredited inspectors and to identify all asbestos-containing building materials. The rule further requires the development of a management plan by an AHERA accredited management planner that is based on the findings of the inspection. The management plan outlines our intent in controlling the potential for exposure to asbestos fibers in our school. In February 2001, Hawaii Administrative Rules Chapter 11-502 was adopted by the Hawaii State Legislature. These rules essentially mirror the requirements of the AHERA regulations. In both cases, the rule requires our school to notify parents, teachers, and employees of the presence and status of asbestos containing material in our school buildings.

The initial inspection of our school was conducted in 1958 and identifies some asbestos-containing materials. Since that time, we continue to conduct periodic surveillance and triennial re-inspections to ensure that the asbestos-containing materials remain in good condition and do not pose a hazard to our students and staff. An asbestos management plan was drafted based on our initial inspection and submitted to the Hawaii State Department of Health. It outlines in detail the methods we will use to maintain the material in a safe manner. The management plan is updated regularly as asbestos is removed or conditions change. A copy of the management plan is on file in the administrative office and is available for your review during our regular school hours. Should you have any questions, please call the school at 808-305-0500.
